### Preface

While this edition of the school law possesses no authority independent of the sources from which it was compiled, its publication by the Board of Education makes the work authoritative as a guide to school officers.

The act of Assembly which gave the school system organic life was approved July 11, 1870. The history of subsequent legislation affecting the schools can be readily traced from chapters LXVI and LXVII of the Codes of Virginia 1887 and 1904, which constitute the basis of the "Public Free School Law."

The text of Pollard's Code of 1904 has been followed, except in so far as it has been modified by legislation since its publication. Acts of Assembly passed subsequent to that date (1904) are incorporated with the original law.

All acts of a local character are omitted, and only such acts pertaining to State institutions of higher learning have been included as are of interest to the school officials at large.

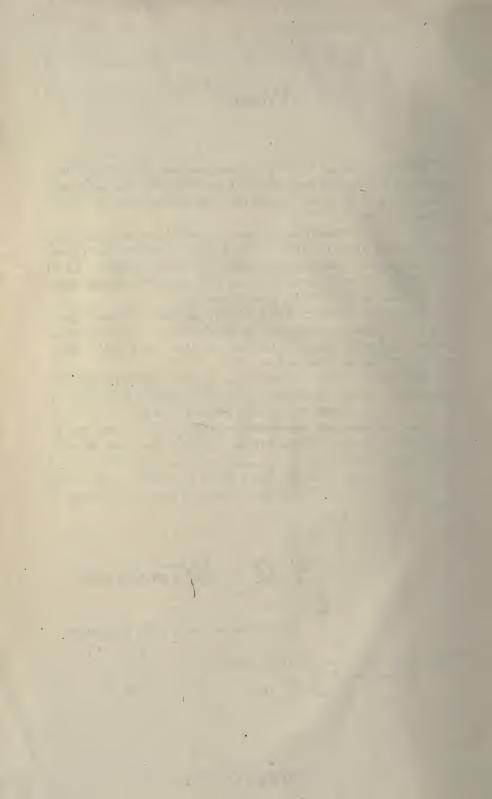

The compiler has endeavored to arrange the matter for the convenience of school officers, without regard to the order in which it is printed in the Code.

It is the duty of every school officer receiving a copy of the law to preserve it carefully, and to transmit it to his successor in office.

R.C. Stearnes

Superintendent of Public Instruction.

DEPARTMENT OF PUBLIC INSTRUCTION, RICHMOND, VIRGINIA. October 1, 1915.

All ceilings shall be at least twelve feet in height.

2. All school-houses for which plans and detailed statements shall be filed and approved by said board, as required by law, shall have all halls, doors, stairways, seats, passage ways, and aisles, and all lighting and heating appliances and apparatus, arranged to facilitate egress in cases of fire or accidents, and to afford the requisite and proper accommodations for public protection in such cases. 2. That any person who shall violate, disobey, refuse, omit or neglect to comply with any rule of said State Board of Health, made by it in pursuance of this act, shall be guilty of a misdemeanor, and upon conviction thereof shall be punished in the manner provided by law; provided, however, that nothing herein contained shall apply to any railroad or sleeping car company whose system of sanitation and disinfection of its cars is approved by the State Board of Health. 65. District not to receive funds until it provides school-houses, and so forth.—No school district shall receive any part of the county or State funds until it has made proper provision for school-houses, furniture, apparatus, text-books for the indigent children, and all other means and appliances needful for the successful operation of the schools. (Code, Sec. 1490)

66. Authorizing county school boards in the State to loan to the district school boards.—Where any county school board in this State is possessed of funds, derived by gift or devise, the said county school board is authorized to loan to the school districts in their respective counties a sum of money, not exceeding one thousand dollars, for the purpose of building school-houses in said district, the amount to be loaned to be proportioned according to school population in each district, so that one district may not obtain a greater proportion than another; and the said district school board is authorized to execute and deliver to the county school board their obligation for any amount so borrowed. The money so borrowed shall be expended by district school boards in building such school-houses as their sound discretion may decide upon. (Acts 1908, page 335)

67. Authorizing the several school boards of the school districts to borrow money belonging to the literary fund.—1. The State Board of Education is hereby authorized to loan to the school boards of the school districts and cities in this State making application therefor money belonging to the literary fund and in hand for investment for the purpose of erecting school-houses in such districts and cities, on the terms and conditions hereinafter set forth and subject to such rules and regulations as may be promulgated by the said board.

2. The several school boards in this State as aforesaid are hereby authorized to borrow money belonging to the said literary fund, and the district or city school board desiring to borrow a part of said fund shall make written application to the State Board of Education and shall set forth therein (one) the amount of the proposed loan; (two) the plans and specifications, estimated cost, and location of the building to be erected; and (three) facts showing the advisability of erecting the same.

3. Upon the approval of the State Superintendent of Public

Instruction of the plans and specifications for and the location of the proposed building and of the making of the loan, the State Board of Education may, in its discretion, make such loan: provided, that no such loan for any one building shall exceed the sum of ten thousand dollars, nor shall it exceed fifty per centum of the cost of the same, and no loan shall be made to aid in the erection of a building to cost less than two hundred and fifty dollars.

4. All loans not exceeding three thousand dollars shall bear interest at the rate of three per centum per annum, payable annually on the \_\_\_\_\_\_day of \_\_\_\_\_; the principal thereof shall be payable in fifteen annual instalments, and shall be evidenced by bonds or notes payable to the Commonwealth of Virginia for the benefit of the literary fund, executed or signed by the chairman of the school board of each district and attested by the clerk thereof. Payments of interest and principal shall be made to the State Treasurer through the Second Auditor, and evidences of debt taken for such loans shall be deposited with Second Auditor and kept by him.

5. The school board borrowing funds under the provisions of this act shall request the board of supervisors or the councils of their respective counties or cities or towns to cause a district tax to be levied sufficient to meet its liabilities on such contract; and in the event that such board shall fail to pay any instalment of interest or principal promptly, then, upon notice in writing to that effect from the Second Auditor or from the State Superintendent of Public Instruction, the county or city treasurer or other person having the custody of the district funds of such district shall pay to the State Treasurer, through the Second Auditor, any such past due instalment of interest or principal out of any district funds in his hands belonging to the district or school board. The failure of the school board of a district or city, or the board of supervisors, or the council of a city or town, to provide for the payment of such loan shall be deemed a cause for removal from office.

There shall also be a specific lien upon the property upon which any loan is made under this section for the payment of said instalments of interest and principal, and the State Board of Education shall not make any such loan in any case in which the payment of said loan would entail, in its judgment, too heavy a charge upon the local revenues of the board or district.

This act shall apply to all loans heretofore made as well as future loans. (Acts 1908, page 106; Acts 1914, page 715)

Whenever the school board of any school district in any of the counties of this State shall, by resolution duly spread upon the minutes of the proceedings of such board, declare that an additional school-house or school-houses are necessary to provide additional public school facilities for the children of school age in such district, and the school funds of such district will not be sufficient to provide such additional school building or buildings, and to furnish the same, and the statement of facts contained in the resolution of such school board shall be confirmed and approved by resolu-

tion of the board of supervisors of the county wherein such school district is located, the school board of any such district, may, when authorized by a vote of a majority of the qualified voters of any such district voting, as hereinafter provided, borrow money for the purpose of erecting a school-house or school-houses therein and for furnishing the same, and may issue either registered or coupon bonds for the sums of money so borrowed; the said bonds to be payable at a period not exceeding thirty years after their date, and to be made redeemable at the option of any such school board at such time after their date as may be specified in the bonds, and such bonds shall bear interest at a rate not exceeding six per centum per annum, payable either annually or semi-annually, as the school board may prescribe: provided, that no such bonds shall be sold for less than their par value, and that at no time shall the aggregate amount of bonds issued and outstanding in any school district exceed seventeen per centum of the aggregate assessed value of the real estate located in such school district.

2. That the said bonds shall be of such form and denomination as the school board of any such school district, by resolution spread upon the minutes of the board, may prescribe, and shall be signed by the chairman and attested by the secretary of the board, and there shall be a lien upon the school property erected and procured with the proceeds of the sale of any such bonds for the payment of the principal thereof and the interest to accrue thereon; and if it shall be so stated on the face of the bonds, there shall be a lien on all the school property of the school district issuing and selling the same for the payment of the principal thereof and the interest to accrue thereon.

3. That the proceeds realized from the sale of any such bonds issued under the provisions of this act shall not be used for any other purpose than that of erecting school buildings and furnishing the same.

4. That no bonds shall be issued under the provisions of this act unless authorized by a vote of the majority of the qualified voters of the school districts proposing to issue the same voting at a special election to be ordered and held as hereinafter provided.

5. When the resolutions of the school board and board of supervisors shall be certified to the circuit court of the county in which any such school district is located, together with the location of the school-house or school-houses to be erected, with the plans, specifications, and estimated cost thereof, approved by the division

school superintendent and the Superintendent of Public Instruction, the said court shall order a special election to be held in any such district at such time and after such notice (which shall not be less than two weeks) as the court may prescribe by order entered upon its minutes, to pass upon the question whether such bonds shall be issued or not for the amount recommended by the school board of such district. And the clerk of the court shall give the notice required by the court of such special election by publication in some newspaper of the county in which such school district is located, and if there be no newspaper published in such county, then in a newspaper published in some adjoining county, or nearby city or county, and by having the same posted by the sheriff of the county in at least ten conspicuous points in any such school district, which said notice shall state the amount of bonds to be issued, the purpose of the proposed issue thereof, and whether the said bonds shall be a lien on all the property in the district or a part thereof. The clerk and sheriff of the county shall each receive for their services hereunder two dollars, to be paid out of the county treasury.

6. The board of supervisors shall prepare the tickets and all other necessary details for such special election, and shall pay the expenses thereof out of the funds of the county, and any such election shall be conducted and held in like manner as regular elections, and the laws of the State applying to general elections shall apply to such special elections, except as hereinafter provided, and the judges and clerks of the regular elections in said district shall be the judges and clerks in any such special election, and shall receive the same compensation; and the voting precincts in any such district for general elections shall also be the same for any such special elections.

7. The judges and clerks of such special elections shall canvass the vote and certify the same to the county clerk in the same manner as required by law in general elections, and on the second day following such special elections it shall be the duty of the county clerk, the Commonwealth's attorney, and the commissioner of the revenue, who are hereby constituted a board of canvassers for that purpose, to meet in the clerk's office of said county and to canvass the returns of such special elections, and to certify the results ascertained by them to the board of supervisors of the county, who shall spread the same upon the minutes of the board, and when this shall have been done, if no notice of contest of said election shall have been filed within ten days after said election, the certificates of the canvassing board hereby created shall be conclusive of the legality and regularity of said special election and of the result thereof.

8. All registered voters of any such school district who were qualified by law to vote in the last preceding general election shall be qualified to vote in any such special election.

9. From the school levies of any such school district there shall be paid, as it matures, the interest on the bonds hereby authorized, and there shall be set aside annually, as a sinking fund, such a sum as will provide for the payment of the principal when it matures. Such sinking fund shall be invested in the bonds hereby authorized, or in such other securities as the said board may, with the approval of the division superintendent of schools for said county, select. The said school board shall annually report to the board of supervisors of the county the amount of the debt outstanding and the amount and condition of the sinking fund.

10. This act shall not be construed to repeal or amend any special acts passed by this or any previous General Assembly allowing or authorizing any school district in this State to borrow money and to issue bonds therefor. (Acts 1908, page 103)

69. Division of school districts into subdistricts; for government and administration of same; for additional school tax therein; and for the appointment of school directors, providing for their terms of office, powers, duties, et cetera.-First. That in due time, before the opening of the schools in the year nineteen hundred and seven, or in any year thereafter following the adoption of this act by any county, it shall be the duty of each district school board throughout the State, in each county in which this act may be adopted, as hereinafter provided, to determine, by specified boundaries, what shall be the area to be attached to each school-house for a primary school for white children, and to each school-house for a primary school for colored children in the respective districts throughout the district, or in any part thereof. These areas shall be called subdistricts, and their boundaries and numbers may be changed from time to time, at the discretion of the district board, but both in establishing and altering the boundaries of such subdistricts such board shall be governed by the provision of section one thousand five hundred and three of the Code of Virginia as amended [section 92 of school law]. The subdistricts for the white children shall be renumbered with cardinal numbers, and the subdistricts for the colored children shall

54

be lettered with capital letters, the letters being further distinguished by cardinal numbers each time the letters of the alphabet are exhausted, as A-one, B-one, et cetera, A-two, B-two, et cetera; whereupon the district school board shall record these actions on its minutes and certify a copy of same to the clerk of the county, who shall record same in his office in a separate book, which he shall provide at the expense of the county school fund for the purpose. The subdistricts for white and colored children, respectively, shall be considered as separate subdistricts, although the territories may overlap each other, for all the purposes and in the construction and application of this act, and only white persons shall vote in the meetings of subdistricts for white persons, and only colored persons shall vote in meetings of subdistricts for colored persons.

Second. Whenever it may be found necessary for the convenience of the people, a subdistrict may be made to include portions of two or more school districts, or portions of two or more counties. Every subdistrict thus formed shall be under the supervision of the district school board, the county school board, and the school trustee electoral board on whose territory the school-house is situated. When it is desired to form a subdistrict from parts of two or more districts in the same county, the matter shall be considered by the district school boards of the districts affected, and on their mutual agreement the boundary lines shall be established. But in case these boards fail to agree, either one of the district school boards affected may appeal to the county school board of the county. In like manner, if it is desired to form a subdistrict from districts belonging to different counties, the boundary lines may be established by the mutual agreement of the school boards of the districts affected. But in case these boards fail to agree, either one of the district school boards affected may appeal to a board of reference, to be composed of the division school superintendent or superintendents of the counties affected, together with the chairman of some district school board of one of the counties affected, to be selected by this superintendent or these superintendents, and the decision of this board of reference shall be final both as to establishing such subdistricts and as to subsequent changes therein. Any doubtful question as to the location of the primary school-house in such subdistrict contemplated by this act shall be decided in the same manner as the number of subdistricts and the question of boundary lines; and no action under this section shall become final

until the same is approved by the State Superintendent of Public Instruction.

Third. No children from beyond the limits of a subdistrict shall be received into the school therein except such as bring a special written permit issued and signed by the school directors of such subdistrict. The school directors of the subdistricts may grant such permits, and to children from other subdistricts, but only to such children as have their tuition and other expenses to the subdistrict fully provided for, by agreement with the school directors from whose territory such children come, or by being paid for privately to the subdistrict: provided, that the privileges of the children residing in the subdistrict shall in no wise be interfered with injuriously by the admission of children outside the boundaries of such subdistrict.

Fourth. As soon as practicable after the approval of the State Superintendent of Public Instruction of the subdistricts, the district boards of the districts in which such subdistricts are located, respectively, shall, after fifteen days' notice, posted at every postoffice in the district, appoint and call a meeting of all persons having the right to vote at subdistrict meetings as hereinafter provided, at some convenient place in each subdistrict, for the organization of such subdistricts, respectively; for adoption of by-laws; for election of school directors of such subdistricts; and for such other purposes as may be lawfully acted upon by such meetings.

Fifth. At such meetings and all subsequent subdistrict meetings hereinafter provided for, all male persons qualified to vote for members of the General Assembly of Virginia residing in such subdistrict and who are assessed with school taxes shall be entitled to vote upon all questions concerning such subdistrict school affairs; and any person entitled to vote at any such meeting may be chosen thereby as a school officer of such subdistrict.

Sixth. At such organization meetings, respectively, a chairman shall be chosen by a majority vote of the meeting. The chairman shall appoint a secretary. It shall be the duty of the clerk of the district school board of the district in which such subdistrict is located to furnish the meeting in question with a copy of this act (the same to be furnished to him by the Superintendent of Public Instruction), and such act shall either be read to the meeting or the substance thereof explained to the same by the chairman. This being done, the secretary shall make a list of all persons present entitled to vote. If it be ascertained that less than one-fourth of the persons of the subdistrict entitled to vote are present, the meeting shall be adjourned from time to time until at least such one-fourth in number of such persons are in attendance. Such attendance of one-fourth in number of such persons shall be necessary for the transaction of business in this organization meeting and in all subsequent meetings hereinafter provided for.

Seventh. When it shall be ascertained that the meeting is lawfully constituted to transact business, it shall then proceed to adopt by-laws to define and provide for the manner of calling future subdistrict meetings, annual and special; what person shall preside over the same; the proceedings thereat; the method of voting, except that all voting at this and all subsequent meetings shall be by written ballots; the duties of the officers of such subdistrict; and for the governing of other matters pertaining to the welfare of the school of the subdistrict not contrary to law. The by-laws may be changed or added to at any lawful meeting of the subdistrict, annual or special.

Eighth. The officers of each subdistrict shall be three school directors, who from among their number shall choose one as chairman, another as treasurer, and another as clerk; all such officers shall hold their office for one year, or until their successors are chosen and qualify. Before entering upon their terms of office such officers shall take the oath prescribed by section eight hundred and twelve, and any of them may be required by the by-laws of such subdistricts to give bond in the penalty and with the surety prescribed by such by-laws: provided, that the subdistrict treasurer shall give bond of the form prescribed by law for county treasurers with some solvent surety company doing business in the State as surety in a penalty equal to double the amount of the total subdistrict school levy for the ensuing year. The compensation of such officers, respectively, if any, shall be provided for by each subdistrict in annual meeting. Any two of such school directors shall constitute a quorum for the transaction of the business of their board.

Ninth. The school directors of each subdistrict shall constitute a subdistrict school board, and shall be a body corporate under the name and style of the "subdistrict school board of subdistrict number———(or letter)" as the case may be, "of the county of ———," by which name it may sue and be sued, contract and be contracted with.

Tenth. The first election of officers shall be at said organiza-

tion meeting, and subsequent elections of officers shall be at the annual subdistrict meetings. Vacancies occurring between annual meetings shall be filled by the remaining school directors, and appointments thus made shall be valid until the next subdistrict meeting. Should the school directors not be elected or appointed as above provided, the district school boards of the districts in which such subdistricts are located, respectively, shall make the appointments.

Eleventh. It shall be the duty of the secretary of the meetings to report within ten days thereafter to the district board in which such subdistricts are located, respectively, the names of the subdistrict officers chosen and also such other action as may be taken by such meetings.

Twelfth. No one shall be chosen a school director who is unable to read and write.

Thirteenth. Special subdistrict meetings may be called at any time by the subdistrict school board, or, on application in writing of any ten persons entitled to vote in such meetings as above provided, the chairman of such subdistrict board may call any special meeting.

Fourteenth. The annual subdistrict meetings, subsequent to the organization meetings, shall be held during the month of May of each and every year, and other special meetings at such times as they may be called, as above provided. Annual and special meetings may be held at any place for which they are called within the subdistrict, and may be adjourned from time to time to any place within the subdistrict. A majority vote of those present at such meetings, annual or special, provided there be present at least one-fourth of the persons of the subdistrict entitled to vote thereat as above provided, shall be decisive of all questions voted upon thereat.

Fifteenth. If the officers of the subdistrict unreasonably refuse to call a subdistrict meeting, a justice of the peace of the district in which such subdistrict is located upon application of ten or more persons of the subdistrict entitled to vote at the meetings thereof, as above provided, may call such meeting, annual or special, by a warrant under his hand, directed to any constable of the district, if any, otherwise to any person applying therefor, directing same to summon the persons entitled to vote at such meeting as above provided to assemble at the time and place and for the purpose expressed in the warrant. Sixteenth. The division superintendents of the pubic schools of the division in which such meetings are held, respectively, shall be entitled to be present at any of said meetings and take part in the discussion of any and all questions and to give advice and instruction, but shall not be entitled to vote thereat by virtue of this section.

Seventeenth. At said organization meetings, and at said annual meetings thereafter, said subdistricts, respectively, may, unless the county and district school tax in such county already levied, as may be otherwise provided by law, aggregates five mills on the dollar, by majority vote, which shall include a majority of the freeholders of such subdistrict, make, grant, and vote in favor of a special levy, as a subdistrict school tax, of such amount as they may judge necessary (provided the aggregate of county, district, and subdistrict school taxation shall not exceed five mills on the dollar) for the further support of the public schools of such subdistrict, including supplement to the teachers' salary and supplement to the expenses of furniture, apparatus, repairs, fuel, for the salary of the subdistrict school officers, if any, and for all other necessary charges affecting the efficiency and welfare of the schools of such subdistricts, respectively; and such vote in favor of such levy shall be recorded on the minutes of such meeting, and a copy of such minute shall be certified to the board of supervisors; whereupon the board of supervisors, at its next meeting at which it lays the general county levy for the ensuing year, shall, in addition to the county and district school tax otherwise provided for by law, levy for such ensuing year such subdistrict school tax as may have been voted in the respective school subdistricts of the county, and provide for the collection of the same in accordance with the provisions of this act; which action of the board of supervisors shall be forthwith certified by the clerk thereof to the clerks of the respective school subdistricts affected. Thereupon the clerk of said subdistrict school board shall, in a book kept for the purpose, apportion and extend such levy against the owners of all property, real and personal, within such subdistrict, and other subjects of taxation which should be taxed therein as herein provided, which may be assessed against such owners and subjects of taxation upon the land and property books of the county for the current year and at the valuation fixed by such books. Thereafter such clerk shall make off from such book kept by him as aforesaid tax tickets against the proper persons for such subdis-

trict school tax levy, and place them in the hands of the treasurer of such subdistrict on or before November first of the current year, and such treasurer shall proceed to collect the same, and on all such tickets not paid by December first of the current year there shall be five per centum of the amount thereof added thereto. Said school subdistrict treasurer, for the collection of such subdistrict school taxes shall have all the powers of distress and levy that may be given by law to county treasurers for the collection of other taxes; and each such tax ticket which may not be paid in any year shall be attached to the tax ticket rendered against the same person for the succeeding year or years until paid, and all of such tax tickets shall be and remain in date, and the subdistrict treasurer shall have the same powers from year to year with respect to the collection of all such uncollected tax tickets as he may have with respect to tax tickets for the current year; and such respective subdistrict school funds shall be paid out by the subdistrict treasurer thereof upon warrants signed by the chairman and countersigned by the clerk of such subdistrict board of the form hereinafter prescribed; and reports shall be made by such treasurer annually to the subdistrict annual meeting, and settlement shall be made by such treasurer annually preceding such annual meeting with the subdistrict school board with respect to such subdistrict school funds, and the result of such settlement and the levy voted at each annual school subdistrict meeting shall be promptly certified by the clerk of such subdistrict board to the school board of the county, and by the latter certified to the division superintendent of schools along with the estimates provided for in section fourteen hundred and forty-seven [section 39 of school law]. Every school subdistrict treasurer, on going out of office, shall deliver to his successor all uncollected tax tickets, books and papers belonging to his office, and all money belonging to his school subdistrict fund, and such successor shall have the same powers with respect to the collection of all such uncollected tax tickets as he has with respect to tax tickets for the current year. For every breach of any condition of the bond of every school subdistrict treasurer, action shall be brought at the relation of his successor (and such successor shall institute same promptly on coming into office), for the benefit of the school subdistrict, before a justice of the peace, if for a sum not exceeding one hundred dollars, and if for a sum exceeding that amount, then in the circuit court of the county, or the same may be recovered by motion in said court after five days' no-

tice. Upon any judgment rendered in such suit or motion a writ of fieri facias may issue, which shall conform in all respects to writs of fieri facias issued under chapter thirty of the Code of Virginia, as amended, and be proceeded with in the same manner.

The school directors of each subdistrict shall also have the following powers and duties:

1a. To explain, enforce, observe, and to make rules in execution of the by-laws of their respective subdistricts and supplementary thereto, when necessary, for the government of the schools of their respective subdistricts.

2a. To call general and special meetings of their respective subdistricts, as provided for by the by-laws thereof and by law.

3a. 4a. To examine all claims against the subdistrict, and, when approved, to pay the same by warrants drawn on the subdistrict treasurer signed by the chairman of such subdistrict school board of directors and countersigned by its clerk, payable to the person entitled to receive such money, and stating on its face the purpose or service for which it is paid, and that such warrant is drawn in pursuance of an order entered by the board of school directors of the subdistrict in question (designating same plainly by proper number or letter) on the \_\_\_\_\_ day of \_\_\_\_\_ (designating date of the order).

5a. To visit the school of their respective subdistricts not less

than once each month throughout the school session and take care that it is conducted according to law and with the utmost efficiency. They shall also do what they can to secure the enrollment and regular attendance of children at school and to promote the appreciation and desire of education among the people.

6a. To determine what shall be the length of school session in their subdistricts, respectively, each year, in addition to the school session which is authorized by other proper school authorities, for the expenses of which additional length of session the subdistrict shall be responsible.

Sa. To report any matter required by the said division superintendent of schools at any time called upon.

9a. To perform such other duties as may be prescribed by the State Board of Education or which may be imposed by law.

Eighteenth. This act shall not interfere with the duties and authority of the division superintendent of schools in respect to teachers and schools as heretofore provided by law. Nor shall this act be considered as applicable to cities or towns set off as separate school districts having more than one primary public school, except that such city or town districts are hereby empowered to extend their lines beyond the corporate limits so as to embrace the children in the suburbs when the district school boards of the districts which may be affected thereby shall agree upon the same. And in case of disagreement the matter shall be determined by appeal, as hereinbefore provided; and where new lines have been established for school districts the apportionment of school money to the school districts shall be made to conform to such change.

Nineteenth. It shall be the duty of the State Board of Education to make all such rules and regulations as may be needed for carrying into effect the provisions of this act.

Twentieth. Any State Superintendent of Public Instruction, clerk, district school trustee, division superintendent of schools or subdistrict school officer failing or refusing to comply with the provisions of this act shall, upon conviction, be deemed guilty of a misdemeanor, and be punished by a fine of not less than fifty and not exceeding one thousand dollars. Twenty-first. This act shall apply to those counties, and only to those, in which it may be adopted after due consideration by the county school boards thereof, respectively: provided, that the county school board of any county in which this act shall be adopted as afo esaid may, if in its judgment the operation of the same is injur ous to the interests of education, apply to the State Board of Education for relief to the county from the provisions of the act, and the said board shall have power to grant such relief. Exception to the requirements of this section may be made by the State Board of Education in the case of a school officer or teacher being the author of any school book or map, or the inventor of school furniture or apparatus, in which case the State Board of Education may, in its discretion, make specific arrangements whereby such school officer or teacher may, if his book, map, or invention be adopted by the proper authority, enjoy the benefits of the proceeds thereof without offence: provided, that no unfair advantage be allowed over other competitors in securing the adoption of the book, map, or invention. Exceptions shall also be made in the case of a merchant who, in the regular course of trade and without employing agents to solicit such business, sells either books

selected and adopted by the State Board of Education or supplies used in the schools and by the pupils.

It shall be unlawful for any such trustee or officer to sell, convey, or deliver any goods, wares, merchandise, or supplies of any kind to a school board or a committee of such board, or to receive, directly or indirectly, any profit or emolument from any contract with, or sale to, such board or a committee thereof, except as provided in this section. If any such contract or sale shall be made it shall be void, and if such claim or bill be paid, the amount paid, with interest, may be recovered by the county or district within two years after payment by action or motion in the circuit court having jurisdiction over said county or district.

So help me God." (Code, Sec. 169)

77. ## Public Free School Law

in sections two hundred and twenty-three, two hundred and thirtytwo, two hundred and thirty-three, or forty-one hundred and sixty, or a commissioner appointed by the Governor, the record shall be on the journal of the executive; when taken by any of the clerks mentioned in the fourth, fifth, and sixth subdivisions of section one hundred and eighty-three, it shall be in the office of that officer by whom the clerk may have been appointed; when taken by a judge, the record shall be in the first court in which he sits; when taken by any officer appointed by or belonging to a court, it shall be in the said court or in such other as prescribed by law; in the case of a member or officer of either house of the General Assembly, the record shall be on the journal of the house, or in such other manner as the house may prescribe by its rules.

And in the case of any other officer, unless it be otherwise provided, the record shall be in the court of the county or corporation in which the duties are to be discharged; or, if his duties are not to be discharged wholly in one county or corporation, then in the court of the county or corporation in which such officer resides. (Code, Sec. 175)

# Teachers and Courses of Instruction

78. Teachers to hold certificate of qualification.—Every teacher of a public free school shall hold a certificate in full force, issued or approved by the division superintendent prior to July first, nineteen hundred and six, or after that date to be issued by the State Board of Examiners and Inspectors and approved by the superintendent of schools for the division within which such teacher is to be employed. (Code, Sec. 1476)

79. To pay teachers in the public schools of Virginia without requiring average attendance of pupils.—The pay of a teacher in the public schools of this State shall not be governed by the daily average attendance of pupils, provided the average attendance of pupils exceeds ten. (Code, Sec. 1480a)

80. Relief of school teachers.—In cases where the monthly salary of a public free school teacher has been reduced in consequence of a lower average attendance of pupils during any month or months of the school term than the average required by law, and it further appears from the term report that the average attendance of pupils during any month or months of the school term has been above that required by law, then such teacher shall be entitled to a compensation per capita at the rate specified in the contract to the extent to which the excess in the average attendance above the required average makes up for the deficiency therein: provided, that in no case shall the whole amount of salary allowed exceed the maximum salary specified in the teacher's written contract. Warrants for such amounts as may be shown by the term report to be due shall be issued and paid in the manner prescribed by law for issuing and paying other warrants for teachers' salaries. (Code, Sec. 1480b)

81. To keep register and deliver same at close of term to clerk. Every teacher in a public free school shall keep a daily register of facts pertaining to his school in such form as the Superintendent of Public Instruction shall require, and shall be responsible for the safe keeping and delivery of the same to the clerk of the school board at the close of the school term, or of the period of his service, whichever shall first happen. (Code, Sec. 1477)

82. Must enter into written contracts.—Written contracts shall be made by the district school board with all public free school teachers, in a form to be prescribed by the Superintendent of Public Instruction, before they enter upon their duties. Such contracts shall be signed in duplicate, each party holding a copy. (Code, Sec. 1478)

83. Providing a retirement fund for public school teachers.— Any person, not including the division superintendents, who has taught in the public schools of this State, may make application to be retired and pensioned under the terms of this act, provided his case comes under either of the two following classifications:

Class "A" shall include every person who has taught in the public schools of this State an aggregate of at least twenty years and who has maintained a good record and by reason of physical or mental infirmity or old age is incapable of rendering efficient service as a teacher.

Class "B" shall include every person who has taught in the public schools of this State for an aggregate of at least 30 years and who has maintained a good record and has reached the age of 58 years if a man, and 50 years if a woman.

The State Board of Education is authorized, and it shall be its duty, to place any such person on the list to be known as the "retired teachers' list," and pay him a pension as hereinafter provided, subject to the exceptions and restrictions mentioned herein; and a careful record of the names of the teachers pensioned under this act shall be kept by the State Board of Education. 2. No applicant under Class "A" shall be pensioned until and unless his mental or physical disability is shown by evidence satisfactory both to the State Board of Health and the State Board of Education, and either of the said boards may order a special medical examination by some physician appointed by it, the expenses, not exceeding five dollars in each case of the said special examination, to be borne by the applicant, unless otherwise directed by the State Board of Education.

3. Any person in either class retired under this act shall have deducted from the first year's pension an amount equal to thirty per centum of the average annual salary earned by such person during the last five years he was a teacher in this State less the amounts already contributed to the pension fund by such person retired.

All money so deducted shall be used to create a permanent endowment for the retirement fund, and only the income shall be used in paying pensions or other current expenses.

4. The fund; whence derived.-In order to provide a fund to pension said retired teachers, all contracts with teachers shall provide that the chairman and clerk of the school board, or other officers whose duty it is to pay public school teachers, shall deduct monthly from the salary of each teacher in the State a sum equal to one per centum of his salary. In order that the sum so deducted shall be promptly covered into the treasury of the State, it shall be the duty of the State Board of Education to deduct from the annual apportionment on account of the appropriation of the General Assembly and the accumulated interest on the investments of the literary fund one per centum of the total amount of the salaries of the teachers of each county, town, or city, as shown by the annual report of the division superintendent for the preceding year. Should the salaries of the teachers for the current year exceed the salaries paid the preceding year, then the State Board of Education shall deduct for the succeeding year an additional amount sufficient to cover said excess, it being the intention in this section of the act to provide a convenient means of paying the pensions deducted from the teachers' salaries into the State treasury without having the trouble and expense of many small remittances from a large number of clerks of district boards. All amounts so deducted and received shall be placed by the State Treasurer to the credit of the fund, to be called the "retired teachers' fund," and an accurate account shall be kept of all funds so received.

5. Appropriation.—The sum of \$5,000 per annum is hereby appropriated out of any money in the treasury not otherwise appropriated to carry into effect the provisions of this act. The said sum shall be turned over to the State Board of Education and deposited as aforesaid with the State Treasurer, to be placed to the credit of the fund created by section four of this act.

6. Legacies, bequests, and so forth.—All legacies, bequests, and funds derived from devises for the benefit of the teachers under this act shall be paid over to the State Board of Education and shall be by it transferred as aforesaid to the Treasurer of Virginia, to be placed to the credit of the fund provided for in section four or seven of this act, as may be proper to carry out the terms of the gift.

All money belonging to this fund, from whatsoever source derived by the State Board of Education, shall be paid into the treasury of the State through the office and upon the warrant of the Second Auditor of Virginia.

7. The State Board of Education shall be permitted to invest the capital and unappropriated income of the said "retired teachers' fund," as provided in the eleventh subdivision of section fourteen hundred and thirty-three of the Code [subsection 11 of section 7, school law], with all the powers of investment or re-investment granted by said section. And all securities belonging to said fund shall be deposited with the Second Auditor for safe keeping, who shall return with his annual report a list thereof with a statement of their value.

Only the income of the funds received and invested under this section shall be used in paying pensions or other current expenses.

8. What pensions to be paid.—The State Board of Education shall quarterly, on the first day of January, April, July and October of each year, issue its warrant on said fund, signed by the president and secretary of said board, for the benefit of each person whose name has been placed on said list for the duarter immediately preceding the time of payment for a sum equal to one-eighth of the average annual salary earned by such person during the last five years he was a teacher in the public schools of this State. The Second Auditor shall issue his warrants to said persons accordingly. In no event, however, shall any quarterly pension exceed the sum of one hundred dollars: provided, that any person whose average annual salary during the last five years he was a teacher in the public schools of this State equaled or exceeded one thousand dollars may receive as a quarterly pension as much as one hundred and twentyfive dollars. In the event that the available funds shall, in the judgment of the State Board of Education, upon a prudent and equitable appropriation of the same, for any quarter be insufficient to pay all pensions due for the quarter to the full amount thereof, then the same shall be paid pro rata according to the amount of money that is available as aforesaid.

9. The State Board of Education shall see that proper arrangements are made for keeping an accurate account of all moneys received, invested or disbursed under this act, and the Superintendent of Public Instruction shall include a full statement of all the transactions of said fund in his annual or his biennial report. The State Board of Education shall require proper and sufficient bonds from the person or persons charged with the management or custody of said funds, except in the cases of the State Treasurer and Second Auditor, whose official bonds shall cover the said funds, for the proper application of which they and the sureties on their official bonds shall be liable.

10. Prior to January 1, 1911, no person shall be placed on the "retired teachers' list" under Class "A" or Class "B" unless such person shall have taught at least one session in the public schools of this State since July 1, 1908; after January 1, 1911, and prior to January 1, 1912, no person shall be placed on said list unless such person shall have taught at least two sessions since July 1, 1908; after January 1, 1912, and prior to January 1, 1913, no person shall be placed on said list unless such person shall have taught at least three sessions since July 1, 1908; after January 1, 1913, and prior to January 1, 1914, no person shall be placed on the pension list unless such person shall have taught at least four sessions since July 1, 1908; and after January 1, 1914, no person shall be placed on the pension list unless such person shall have taught at least five sessions since July 1, 1908: provided, that the provisions of this section shall not apply to any person whose application reached the State Board of Education prior to July 1, 1908.

 $10\frac{1}{2}$ . Any person who would have been entitled to a pension under this act under either Class "A" or Class "B" had it been in force prior to July 1, 1908, and subsequent to July 1, 1902, and who retired either voluntarily or on account of physical disability from teaching in the public schools prior to July 1, 1908, and subsequent to July 1, 1902, and who is otherwise qualified under the provisions of this act, shall receive under this act a pension equal to one-fourth of the average salary earned by such person in teaching a public school during the last five years of his service, which shall be paid as other pensions are paid under this act, and all other provisions affecting other pensioners under this act shall apply to those pensioned under this section.

11. The State Board of Education shall publish annually the retired teachers' list in the Virginia Journal of Education, or some other paper selected by it, giving the name, age, and quarterly pension of each person on said list, together with a statement of the class under which he is retired.

12. In the interest of fairness and justice to all parties, the deductions provided for in section three of this act shall be made to apply to all persons whose names have been or shall be placed on the "retired teachers' list" prior to the time this law goes into effect under such rules and regulations as may be prescribed by the State Board of Education.

13. The State Board of Education is authorized to make such further rules and regulations as are necessary to carry out the purposes of this act. (Acts 1910, page 127)

84. How persons on "retired teachers' list" may retire or be removed therefrom under certain circumstances and cease to receive pension.-1. Any person heretofore or hereafter placed on the "retired teachers' list," under the terms of the act providing a retirement fund for public school teachers, approved March ninth, nineteen hundred and ten, under Class A, shall receive a pension only so so long as his mental or physical disability continues to exist; and he may have his name removed from said list at his own request at any time, or the State Board of Health or the State Board of Education may at any time, and shall at intervals not exceeding three years, require a new examination of any person receiving a pension under Class A, as aforesaid, to determine whether the said person is still incapable of rendering efficient service as a teacher by reason of mental or physical infirmity or old age, and if either of said boards shall be of opinion that the said disability no longer exists, the State Board of Education shall, after thirty days' notice, remove the said recipient of a pension from the said retired teachers' list, and in the event of either voluntary retirement or such removal, the pensioner shall no longer receive a pension unless re-instated as hereafter provided.

2. In case any person on the retired teachers' list is removed therefrom, as aforesaid, or voluntarily retires from said list, he shall be restored to the same rights and condition regarding certificates as he possessed at the time he made application to be placed on the retired teachers' list.

3. Any person so removed from the retired teachers' list or who voluntarily retires therefrom may be restored to said list at any time, either under Class A or Class B, by making application on forms prepared for that purpose by the Superintendent of Public Instruction without regard to the number of years he may have taught since July first, nineteen hundred and eight, if otherwise eligible under the terms of the said act of March ninth, nineteen hundred and ten.

4. Any person whose name has been placed upon the retired teachers' list who shall engage in teaching in any of the public schools of this State shall forfeit his right to a position on the retired teachers' list and shall be removed therefrom by the State Board of Education.

5. Any female teacher unmarried at the time her pension was applied for or granted, heretofore placed upon the retired teachers' list, who taught in the public schools of this State for an aggregate of less than thirty years, or who was less than fifty years old at the time she was placed on said retired teachers' list, shall be removed from said list after thirty days' notice if it shall appear that she has heretofore married since her pension was applied for, or if she shall hereafter marry.

Any female teacher unmarried at the time of her pension shall be applied for or granted, hereafter placed upon the retired teachers' list, whose service in the public schools of this State shall be for an aggregate of less than thirty years or who is less than fifty years old at the time she is placed on the retired teachers' list, shall be removed from said list after thirty days' notice if it shall appear that she has married since her pension was applied for.

6. In any case in which any person is removed from the retired teachers' list under the terms of this act there shall be paid back to him the amount of money which he has paid into the retired teachers' fund with six per centum interest, less any amount or amounts that may have been paid to him out of the retired teachers' fund while his name remained on said retired teachers' list. (Acts 1912, page 655)

85. May suspend pupils.—A teacher of a public free school may, for a sufficient cause, suspend pupils from attendance on the school until the case is decided by the board of school trustees, which shall be with as little delay as possible: provided, that in all such

cases of suspension the teacher shall report the facts in writing to the district school board, and to the parent or guardian of the child suspended. (Code, Sec. 1479)

86. Meetings of teachers to be encouraged; summer schools.— First. Teachers' meetings.—County or district school boards may encourage meetings of teachers to be held from time to time in any county or school district under such regulations as the division superintendent of schools may prescribe.

Second. Appropriation for summer schools.—A sum not exceeding five thousand dollars, payable out of any amount appropriated out of the general fund of the State for public free school purposes, may be used annually by the State Board of Education for the establishment and maintenance of State summer schools for the better equipment of the teachers in the public schools of this State: provided, that not less than eight such summer schools shall be held annually in this State.

Third. Purpose of summer schools.—The purpose of said summer schools shall be to familiarize the teachers in the public schools of this State with more advanced methods of teaching and to furnish such additional academic training as will tend to promote the usefulness of the public schools.

Fourth. How conducted.—The said summer schools shall be conducted under the general management of the State Board of Education, and shall be subject to the supervision of the Superintendent of Public Instruction, who shall from time to time select the places of holding said summer schools, the instructors thereof, and regulate the course of instruction to be pursued therein.

Fifth. Terms and regulations.—The said summer schools shall be held for a period of not less than four weeks in each year, beginning on such day or days in the summer vacation of the public schools as may be designated by the Superintendent of Public Instruction. The sum hereby authorized to be expended shall be applied exclusively to the payment of instructors and to other necessary expenses incident to the conduct of said schools: provided, that all claims for services of instructors and other necessary expenses shall be submitted to and approved by the State Board of Education, and when so approved shall be paid by warrants of said board, drawn on the Second Auditor, and a separate account of the receipts and disbursements on account of the appropriation shall be kept by said board. (Code, Sec. 1481)

87. Preference to be given to graded schools.-In all localities

where the number of children is sufficient, preference shall be given, under suitable regulations, to the establishment of graded schools. (Code, Sec. 1502)

88. What to be taught in schools.—In every public free school shall be taught orthography, reading, writing, arithmetic, grammar, geography, physiology, and hygiene, civil government, drawing, history of the United States and history of Virginia. In teaching physiology and hygiene approved text-books shall be used plainly setting forth the effects of alcohol and other narcotics on the human system, and such effects shall be as fully and thoroughly taught as are other branches of the said last named subjects. Provision shall further be made for moral education in the public schools to be extended throughout the entire course. Such instruction shall be imparted by reading books and text-books inculcating the virtues of a pure heart and noble life. The text-books shall be selected as are other text-books by the State Board of Education. (Code, Sec. 1497)

89. Provision for intermediate grades of instruction.—For the purpose of encouraging an intermediate grade of instruction between that of the grammar school and that of the college, any county school board or any district school board may, under regulations to be prescribed by the State Board of Education, establish and maintain schools of higher grade, or in any public school provide for instruction in any branches necessary to qualify pupils to teach in the public schools or to enter institutions of higher education: provided that for instruction in such higher branches the board may require a fee, to be paid monthly or quarterly in advance, not to exceed two dollars and fifty cents per month for each pupil. (Code, Sec. 1498)

90. Higher branches not to interfere with elementary.—The establishment of such schools of higher grade or the introduction of such higher branches shall not be allowed to interfere with regular and efficient instruction in the elementary branches. (Code, Sec. 1499)

91. To provide for instructing pupils so as to prevent accidents. 1. (Acts 1914, page 278)

# High Schools

94. To establish and maintain a system of public high schools and to appropriate money therefor.—First. It shall be lawful for any district school board or district school boards to establish and maintain a public high school at such place as may be both most convenient for the pupils who attend and most conducive to the purposes of such school: provided, that the high school may be conducted either in a suitable building provided for that purpose, or in the same building with one of the graded schools of the district in which said high school is established, but no State funds shall be appropriated under this act for high school purposes until provision has been made to maintain, for a term of at least five months in each year, the primary and grammar schools of the district or districts establishing said high school in such county or counties.

Second. Two or more districts in the same or adjoining counties may unite in establishing and maintaining a joint high school under the provisions of this act, and under such rules and regulations as may be prescribed by the State Board of Education; and the said board shall also prescribe the requirements for admission to such high school and the conditions on which properly prepared pupils residing in other districts may attend said high school.

Third. The superintendent or superintendents of any division in which said high school shall be established shall give due notice of the same to the State Board of Education, and before any State funds shall be appropriated for the support of such school the said board shall cause the same to be inspected by a competent person, to see that suitable arrangements have been made to enable the school to conform to such standard as may be prescribed by the State Board of Education for regularly organized public high schools in this Commonwealth; and when the district school board or district school boards shall appropriate annually as much as two hundred and fifty dollars for the support of such high school from the local school funds under the restrictions named in the first section of this act, or from funds privately subscribed for this purpose, and this fact shall have been duly certified to the State Board of Education by the superintendent of the division in which such high school is established, then the State Board of Education shall issue annually a warrant on the Second Auditor for two hundred and fifty dollars (250), except as hereinafter provided, in favor of the treasurer of the county in which such high school is located, which money shall be placed to the credit of the high school fund of the district in which such high school is located and paid on the warrant of the district school board exclusively for the support of said high school. The treasurer of each county in which such high school is located shall keep such funds separate and distinct from other public school funds, and shall make a detailed report of receipts and disbursements of said high school fund to the division superintendent of schools at the same time that he makes the annual report of his settlement with the county school board: provided, that not more than one high school in any school district shall have the benefit of the appropriation of State funds provided for in this act unless, in the judgment of the State Board of Education, the area and school population of a district may justify the establishment of more than one high school therein.

Fourth. The sum of fifty thousand dollars (\$50,000) is hereby appropriated annually for the purposes of this act, to be paid out of any money in the State treasury not otherwise appropriated, which amount, or so much thereof as shall be necessary, upon

77

the itemized statement of the State Board of Education duly certified and filed with the Auditor of Public Accounts, shall be turned over by the Auditor of Public Accounts, to the Second Auditor and shall be placed to the credit of the literary fund, and shall be used exclusively for the support of public high schools established and maintained in accordance with the provisions in this act; provided, that if any district school board or district school boards shall appropriate a larger amount the State Board of Education shall issue annually a warrant equal to the amount appropriated by said district school board or district school boards, but said warrant issued by said State Board of Education shall not exceed four hundred dollars (\$400) for any one high school in any one year; provided also, that the State Board of Education shall have the power to fix such rules and regulations as are necessary for the proper distribution of this fund. (Acts 1906, page 350)

95. To provide for normal instruction in certain public high schools.—Whereas trained and capable teachers are indispensable to an efficient system of public schools; and whereas there are now in successful operation in nearly every school division in the State public high schools in which are taught the higher branches of learning, and which by the adoption of a normal school course in connection with the ordinary curriculum provided for such schools can be made a convenient and economical means of providing competent teachers for primary schools in the rural districts of the State; therefore,

1. The sum of fifteen thousand dollars, or so much thereof as may be necessary, is hereby appropriated annually for the purposes of this act, to be paid out of any money in the State treasury not otherwise appropriated; which amount, upon the order of the Board of Education, duly certified and filed with the Auditor of Public Accounts, shall be turned over by said Auditor to the Second Auditor and shall be placed to the credit of the literary fund, and shall be used exclusively for the pay of teachers in the normal department of such public high schools as may be designated by the State Board of Education as hereinafter prescribed: provided, that no school shall receive under this act during any year a larger appropriation than fifteen hundred dollars.

2. The State Board of Education shall issue annually a warrant on the Second Auditor for such sums as may be appropriated to the high schools designated by said board in favor of the treasurer of the county or city in which such high school is located, which money shall be placed to the credit of the high school fund of the district in which such high school is located and paid on the warrant of the district school board exclusively for the pay of teachers employed in the normal school department of said high school.

3. The State Board of Education shall designate the public high schools in which a normal school department may be established and conducted under the provisions of this act, and shall prescribe the normal course which is to be adopted and taught in said schools in connection with the high school curriculum already provided, and shall determine the qualifications of all teachers employed in such normal school department. The chief object of such normal school department shall be to instruct teachers in the best methods of organization, teaching and management of primary schools in the rural districts. The Board of Education, in its discretion, may prescribe that any pupil receiving the benefit of such course of normal school training shall obligate himself to teach for not less than two years in the rural public schools of the State.

4. The said Board of Education shall designate not more than one such high school in any county; but the said board may in its discretion select some public high school within an incorporated town or city which is located in such county, provided no State normal school is located in said incorporated town or city. (Acts 1908, page 69)

96. To provide for instruction in agriculture, domestic arts and sciences, and manual training in public high schools.—1. In at least one public high school, to be selected by the State Board of Education in each congressional district of the State, as the said congressional districts were formed on January 1, 1912, a thorough course in agriculture, the domestic arts and sciences and manual training shall be given in addition to the academic course prescribed for such high schools, and at least one-fourth of the school time shall be devoted to these subjects.

2. Not less than five acres of land, convenient to each of said schools, shall be acquired by lease, purchase or donation for the purpose of providing practical demonstration in agricultural science. The cultivation of these lands, as far as practicable, shall be done by the students themselves.

A careful account shall be kept of the product of each student's labor, showing how it is disposed of and the prices received on the products which are sold. The proceeds of such sales shall be applied or used under general regulations adopted by the district school board of the county in which the agricultural school is located, which regulations must be approved by the State Board of Education.

3. Suitable buildings shall be provided and properly equipped for the purposes of said schools, including workshops planned for practical instruction in elementary manual training, in bench work and in other forms of shop work applicable to rural life.

4. All female students attending the high schools provided for under this act shall be instructed in the domestic arts and sciences, and suitable equipment for such instruction shall be provided by the district school boards out of the funds applicable to the maintenance and equipment of the school. Said female students may also take the agricultural course if they so desire.

5. The agricultural high schools established under this act may be used as centers for directing the demonstration farm work and other extension work throughout the bounds of the several congressional districts, and shall be conducted under such rules and regulations as the State Board of Education and the president of the Virginia College of Agriculture and Polytechnic Institute may prescribe. (Acts 1912, page 56)

97. To authorize the boards of supervisors in the several counties in this State to appropriate money for the establishment, equipment and maintenance of agricultural schools.—Whereas by an act approved on the fourteenth day of March, nineteen hundred and eight, the General Assembly of Virginia authorized the establishment of an agricultural school in each congressional district of the State; therefore.

1. Be it enacted by the General Assembly of Virginia, That the board of supervisors in the several counties in this State be, and they are hereby, authorized to appropriate such sum or sums of money as to them may seem proper, in their discretion, for the establishment, equipment or maintenance of such an institution.

2. All appropriations heretofore made by the board of super-

visors of any county for the purposes above mentioned are hereby ratified and validated. (Acts 1910, page 328)

### Pupils

98. Who admitted to public schools; provision for children of adjoining districts; separate schools for white and colored .- The public free schools shall be free to all persons between the ages of seven and twenty years residing within the school district; provided, that whenever a school is so situated in one district that it is, with the approval of the division superintendent, attended by children of another district, the board of the district other than that in which the school is located shall, in the absence of agreement or when no agreement can be reached, pay for each child to the district in which the school is located the cost of education per pupil enrolled, to be determined by the division superintendent of schools, with right of appeal by any person interested, or either of the district school boards, either with reference to the propriety of the said attendance by children of another district or the cost of education as aforesaid, within ninety days, the said appeal to be made in writing to the school trustee electoral board of the county in which the school is located; and the State Board of Education shall have power and it shall be its duty to make regulations whereby the children of one district may attend school in an adjoining district, out of the county or an adjoining city; provided, that white and colored persons shall not be taught in the same school, but shall be taught in separate schools, under the same general regulations as to management, usefulness and efficiency. (Code, Sec. 1492; Acts 1912, page 648)

99. Qualifications of preceding section.—The preceding section is subject to the following qualifications:

First. Any person domiciled in this State who is a resident of any school district of the State may send his children to any public free school in any other school district of the State upon such terms and conditions as may be prescribed by the school board of the said last mentioned school district, and any guardian domiciled in this State as aforesaid, for his ward or wards, shall be entitled to the same privilege for them if they are domiciled in Virginia, which said terms and conditions shall be complied with by the school district in which said parent or guardian resides; provided that the said school district in which said parent or guardian resides shall have the right of appeal to the school trustee electoral board of the county in which said district is situated, which said school trustee electoral board shall decide finally what are just and proper terms and conditions in each case: and provided, further, that children whose parents or guardians do not reside in a city shall be received into the public schools of such city only upon such terms and conditions as may be prescribed by the school board thereof, subject to an appeal to the State Board of Education, but the provisions of this act shall not apply to indigent children, and children living with and entirely supported by residents of said district shall be admitted to the public free schools of said district as if they were children of said residents. /

Second. The school board of any district bordering on another State which grants the same privilege to the State of Virginia may, in its discretion, admit into its schools, free of tuition, persons of school age residing beyond the limits of this State, but near thereto, if their parent or guardian pays taxes in the said district.

Third. Attendance shall be upon the school in the district nearest to the residence of the pupils, unless otherwise ordered by the district school board, subject to the regulations of the State Board of Education. (Code, Sec. 1493; Acts 1912, page 648)

100. Admission of children six years of age under certain conditions.—The public free schools of this State shall be free to any child six years of age, provided that in the opinion of the teacher and the division superintendent the said child shall have reached such a stage of maturity as to render it advisable to permit him to enter school. (Acts 1914, page 141)

101. Who colored; who Indian.—Every person having one-sixteenth or more of negro blood shall be deemed a colored person, and every person not a colored person having one-fourth or more of Indian blood shall be deemed an Indian. (Acts 1910, page 581)

(Code, Sec. 773b)

124. Limiting the time in which warrants drawn by the supervisors, school boards, and county boards shall be paid.—No warrant or order drawn on the county treasurer of any county by the board of supervisors, district school board, or circuit court shall be paid by said treasurer unless said warrant or order be presented to be paid and registered in a book, to be kept by the treasurer for that purpose, within two years from date of the drawing of the said warrant. (Code, Sec. 860a)

125. Ascertaining and publishing a statement of the annual receipts and disbursements of the counties and cities of the Commonwealth.—The treasurers of the several counties and of the several cities of the Commonwealth shall, not later than the first day of September in each year, file with the Auditor of Public Accounts a detailed statement showing the amount of receipts and disbursements of the county or city, as the case may be, for the preceding fiscal year of the county or city, which detailed statement shall be certified to by the chairman of the board of supervisors or the mayor of the city, and also by the chairman of the school board.

126. To permit city and county school boards to change the depositaries of school funds, to prescribe the methods therefor, and to fix the compensation, duties and responsibilities of such depositaries.—First. It shall be the duty of the superintendent of schools of any county or city of this Commonwealth whose treasurer fails to pay, upon presentation, any warrant drawn on him for school purposes, to require such treasurer to furnish to the said superintendent, within thirty days thereafter, a statement, under oath, of all moneys in his hands or collected by him for school purposes, whether they be State, county, city, or district funds, and the amount of each of said funds he may have disbursed.

Second. Whenever any county or city treasurer refuses or fails to furnish the statement as required in section one of this act, in the time and manner therein prescribed, or fails to pay, upon presentation, any warrant drawn on him for school purposes, having in hand sufficient funds to pay such warrant, it shall be the duty of the school superintendent of such county or city to notify the school board thereof of such failure; and it shall be the duty of such school board, and they are hereby empowered, to direct that all funds held by the treasurer of the county or city for school purposes, whether they be State, city, county, or district funds, be transferred and paid over by the treasurer of said county or city to such depositary as the said county or city school board may designate. No commission shall be allowed said treasurer for the disbursement of any money he is hereby required to turn over to the depositary.

Third. The county or city school board shall enter on their minutes an order or resolution directing the transfer of funds as provided by the second section of this act, and designate the depositary to which said funds are to be paid, and shall cause a copy of said order or resolution to be delivered to the judge of the county or corporation court, the treasurer of the county or city, and the several district school boards of their county.

Fifth. Such depositary shall receive the same compensation as is paid to county and city treasurers for disbursing State school funds, and be subject to the same pains and penalties as are now inflicted by law on county or city treasurers, and be recovered before the same courts and in the same manner as the same are recovered of such treasurers. All laws now in force, or hereafter enacted with reference to drawing warrants for school funds on county or city treasurers, the payment of said warrants, making settlements with county or city school boards, rendering statements, paying over funds to depositaries, or in any way affecting the disbursement of funds held by county or city treasurers for school purposes, shall apply to such depositaries in like manner as the same apply to such county and city treasurers.

Sixth. As soon as the bond required of the depositary under the fourth section has been given, the city school board and the several district school boards shall draw warrants on such treasurer for all school funds in his hands, whether State, city, county or district funds, in favor of said depositary, and deliver the same to the depositary. The warrants shall be signed by the president and secretary of such city or district school board and shall be forthwith presented by such depositary for payment to the treasurer of such city or county, who shall pay the same on demand.

Seventh. Nothing in this section shall be so construed as to give validity to any devise or bequest to or for the use of any unincorporated theological seminary. (Code, Sec. 1420; Acts 1914, page 414)

130. Fines, and so forth, shall be paid into treasury to credit of literary fund.—The proceeds of all fines collected for offences committed against the State and directed by section seven of article eight of the Constitution of Virginia to be set apart as a part of a perpetual and permanent literary fund, shall be paid and collected only in lawful money of the United States, and shall be paid into the treasury to the credit of the literary fund, and shall be used for no other purpose whatsoever. The principal of the said fund shall always remain unimpaired and entire, and the annual income arising therefrom shall be, and is hereby, dedicated exclusively to the support and maintenance of public free schools in this State. It shall be the duty of the Auditor of Public Accounts annually to pay over. in money, according to the usual forms and general provisions of law, all that portion of the annual revenue of the State which is set apart for public free school purposes.

The proceeds of all fines collected for offences committed against the State and directed by section one hundred and thirtyfour of article nine of the Constitution of Virginia to be set apart as a part of a perpetual and permanent literary fund shall be paid and collected only in lawful money of the United States, and shall be paid into the treasury to the credit of the literary fund, and shall be used for no other purpose whatsoever. (Code, Sec. 1505)

132. Approximate apportionment and disbursement of State

funds.-The Auditor of Public Accounts, on or before the first day of November of each year, shall make a calculation of the gross amount of all funds applicable to public free school purposes for the ensuing year, which calculation shall be based upon the State taxes assessed for school purposes upon persons, real estate and tangible personal property and the property of public service corporations other than the rolling stock of corporations operating railroads by steam; and the Auditor of Public Accounts shall include in said calculation ten cents on every one hundred dollars of the assessed value of the rolling stock of corporations operating railroads by steam and a like amount on every one hundred dollars of the assessed value of the intangible personal property, and so far as said calculation shall be based upon the land and property books of the several commissioners of the revenue for said year he shall base his calculations upon the commissioners' books of the next preceding year when said books have not been received in time. From the aggregate thus ascertained the Auditor shall deduct as an allowance for delinquents ten per cent of the State tax for public free school purposes upon persons and real estate and upon tangible and intangible personal property, and shall report to the Superintendent of Public Instruction not later than the first day in November of each year the net amount of all funds found to be applicable to public free school purposes for the current year after making the deductions herein provided for as an approximate basis for distribution; whereupon, under the direction of the State Board of Education, there shall be furnished to the Auditor a distributive statement of the amounts due the several counties and cities in the State upon this approximate basis.

Upon receipt of such statement the Auditor shall issue his warrant upon the Treasurer of the State for one-half of the amount each city or county is entitled to receive, payable to the treasurer of such city or county; and on the first day of February following, the Auditor shall issue his warrant upon the Treasurer of the State for the other half of the amount each city or county is entitled to receive, payable to the treasurer of such city or county. (Code, Sec. 1507; Acts 1915, page 137)

133. Treasurer to pay warrants.—All warrants drawn by district school boards upon the State school tax fund shall be paid by the county or city treasurer out of any State funds received by him from the Auditor of Public Accounts or the Second Auditor. But in no case shall he pay out a greater sum for any district than the amount of State school funds apportioned to said district. (Code, Sec. 1509)

134. County boards to compare warrants.—At the annual meeting in August in each year the county school boards shall compare the warrants issued by each district board with those paid by the treasurer, and, through the division superintendent of schools, report the result to the Superintendent of Public Instruction. (Code, Sec. 1510)

135. Distribution of residue of State funds.—Should there be found, upon the collection of the taxes, an amount greater than the approximate amount hereinbefore provided due to the public free schools of the State for any one year, then the excess due the schools shall be distributed as provided by section fifteen hundred and seven [section 132 of school law], and nothing in the school law shall be construed to interfere with the same. (Code, Sec. 1512)

136. Of what school funds to consist.—The funds applicable annually to the establishment, support, and maintenance of public free schools in this State shall consist of—

First. State funds, embracing the annual interest on the literary fund; all appropriations made by the General Assembly for public free school purposes; that portion of the capitation tax provided for in the Constitution to be paid into the State treasury and not returnable to the counties, and such tax on property, not less than one mill nor more than five mills on the dollar, as the General Assembly shall from time to time order to be levied. These funds shall be applied exclusively to the maintenance of primary and grammar schools.

Second. County funds, embracing such tax as shall be levied by the board of supervisors in pursuance of this section, and donations, or the income arising therefrom, or any other funds that may be set apart for district [county] school purposes.

Third. District funds, embracing such tax as shall be levied by the board of supervisors of the county for the purposes of the school district in pursuance of this section; such dog tax as shall be applied to school purposes by the board of supervisors, and donations, or the income arising therefrom, or any other funds that may be set apart for district school purposes.

The board of supervisors of each county, at the regular meeting in April of each year, or as soon thereafter as practicable, or

when the division superintendent of schools shall file with the said board the estimates made by the county and district school boards in accordance with section fourteen hundred and sixty-six of this chapter [section 49 of school law], shall levy a tax of not less than ten nor more than forty cents on the hundred dollars of the assessed value of the real and personal property in the county for the support of the public free schools of the county, and a tax of not less than fifteen nor more than thirty-five cents on the hundred dollars of the assessed value of the real and personal property in any school district for district school purposes: provided, that should the board of supervisors fail to make a levy sufficient to raise the amounts estimated by the county school board as necessary for county and district school purposes, respectively, it shall, upon a petition in writing from the county school board praying for a reference of the question of such increase in the levy as will make it sufficient to raise the said estimated amounts to the qualified voters of the county or of the district, as the case may be, submit the question and the amount of the increase to the qualified voters of the said county for the increase in the county levy, or to the qualified voters of the said district as to the increase in the district levy: provided, however, that the total levy for county and district school purposes shall not exceed fifty cents on the hundred dollars of the assessed value of the taxable property in both the county and the district: provided further, that no such increased levy shall be made unless a majority of the qualified voters voting at the election shall vote in the affirmative. In towns that constitute single school districts the council instead of the board of supervisors may make the levy for district school purposes.

Boards of supervisors may be permitted to make a less rate of levy than the minimum rates of county or district school levies named above in any case by a special order of the State Board of Education if in the judgment of said board the said less rate of levy will produce sufficient funds to provide adequate school facilities in the county or district concerned. (Code, Sec. 1506; Acts 1914, page 474)

137. Requiring the several county and district school boards of Virginia to make and publish annually a statement of receipts and disbursements, and providing a penalty for failing to do so.— The several county school boards in Virginia are required to cause to be made out immediately after the annual settlement with the

(Acts 1908, page 555)

138. Boards of supervisors to fix and order county and school levies.—The board of supervisors of each county shall have power, and it shall be their duty, on July first, nineteen hundred and fifteen, or as soon thereafter as practicable, and annually thereafter at its regular meeting in the month of April, or as soon thereafter as practicable—

First. To fix and order county levies. To fix the amount of the county levies for the current year; to order the levy on all property assessed with tax within the county and on the capital invested, used or employed in mercantile business; moneys and credits actively used and employed in carrying on the mercantile business, including goods, wares and merchandise on hand, and all solvent bonds, demands or claims made or contracted in the course of business during the preceding year shall be held to be capital in said mercantile business; to order the levy on the real estate and tangible and intangible personal property of public service corporations based upon the assessment fixed by the State corporation commission, and certified by it to the board of supervisors, both with respect to location and valuation; also to order the levy on all real estate, situated in their respective counties, belonging to any city, town or other municipality, situated outside of said county, which may have been relieved from taxation for State purposes, this act to apply to such real estate as may heretofore have been, or may hereafter be, purchased for the purpose of securing a water supply for said city, town or municipality, which water is a source of revenue to such

city, town or municipality, or purchased for the purpose of protecting the watershed of any stream or streams, the water of which may be used for said purpose; and when such real estate has been relieved of assessment for State taxes and does not show an assessment on the land books of said county for that or the preceding year, then such board of supervisors shall direct the commissioner of the revenue for the revenue district in which the real estate in question is situated, to assess the same for taxation in accordance with the provisions of section five hundred and eight of the Code, omitted taxes, how assessed, and hereafter the assessors appointed under the provisions of section four hundred and thirty-seven of the Code for the purpose of assessing lands and lots shall regularly assess such real estate for taxation for county purposes in accordance with the rule enacted for determining the valuation of real property assessed for State taxation.

Second. To levy school taxes. To levy a tax upon all the property in the county, upon which county levies are laid, sufficient to raise the amount recommended by the county school board in their estimates for county school purposes, or so much thereof as it may allow; and to levy a tax upon such property, in each school district, sufficient to raise the amount recommended by the county school board for district school purposes, or so much thereof as it may allow; but the tax so levied shall not be less than the minimum nor exceed the maximum prescribed in the third subdivision of section fifteen hundred and six. (Code, Sec. 833a; Acts 1915, page 147)

139. To authorize and require the board of supervisors to levy a sufficient tax in addition to the levy authorized by law to be laid for general district school purposes to pay the interest on and principal of certain bonds as the same shall become due.—The board of supervisors of any county wherein the board of school trustees in any school district of such county has, prior to the passage of this act, issued bonds under any special act of the General Assembly, be, and is hereby, authorized and required to levy annually a sufficient tax on the property in such school district, in addition to the annual levy authorized by law to be laid for general district school purposes, to pay the interest on and principal of such bonds as the same shall annually accrue or mature; provided, however, that such annual levy shall not exceed the rate of twenty-five cents on the one hundred dollars of the assessed value of such property. (Code, Sec. 834a)

140. Assessment of school taxes; district taxes to be kept separate; duty of Auditor as to land and property books.-All taxes imposed for public free school purposes, whether by the State or by or for any county, or by or for any school district, shall be assessed at the same time and in the same manner as are State and county taxes for ordinary purposes; and in any county or district where such tax has been levied by the board of supervisors of the county it shall be the duty of the commissioners of the revenue therein to extend such tax in the copies of their land and property books which they return to the treasury of the county. Where two or more school districts are included in the same commissioner's district it shall be his duty, when he extends the school tax in his land and property books, to keep separate the tax for each school district, indicating by name or number the district wherein the property is taxed. It shall be the duty of the Auditor of Public Accounts to have the land and property books prepared with three columns, one for entering the county school levies, one for entering the district school levies, and the third for entering the name or number of the school district wherein the property is taxed. The said land and property books shall be so ruled as to provide for the proper assessing of all local school taxes, including those on property, et cetera, not assessed with State taxes. (Code, Sec. 1514; Acts 1908, page 553)

141. Commissioner of revenue to extend levies and taxes; compensation therefor.—The commissioner shall extend in his land book and book of personal property the total of the county and district levies, or city levies, as the case may be, including the road and school levies, so as to show the aggregate amount of all such levies assessed against each person assessed with State taxes on said books. The commissioner of the revenue shall recapitulate the levies in such form as the Auditor shall prescribe; and for this additional service he shall receive such compensation as the board of supervisors, or council, as the case may be, may deem reasonable; provided, however, that the compensation to be allowed commissioners of the revenue in Botetourt county for this additional service shall not be less than two hundred and fifty dollars to each commissioner. (Code, Sec. 509; Acts 1912, page 212)

142. License tax on dogs for protection of sheep and other stock; balance on hand to be devoted each year to county school funds or public roads.—First. It shall be the duty of the commissioners of the revenue in the counties of this State to take annually, at the time of listing the taxable property therein, a list of all dogs over three months old, showing whether male or female, with the name of the owner or person in whose possession the same is found, upon the oath or affirmation of the owner or housekeeper or head of the family with whom or on lot or premises occupied by him, any dog or dogs may be found, as to the number of dogs such person may own or have, or as may be on the lot or premises occupied by him, whether owned by him (or her) or not; and should the commissioner fail or omit to list a dog, it shall be his duty to make a note of it on his books for the next fiscal year, and the owner of said dog shall be chargeable with said tax in addition to any tax he shall then owe, and shall return such lists of dogs to the clerk's office of their respective counties at the time when they return their lists of taxable property. In addition to the fines and penalties and forfeitures as are now incurred by them for neglect of similar duties, under existing law, the commissioner shall be liable to a fine or forfeiture of fifty cents for every wilful or negligent failure to list any dog. The fees for the commissioner of the revenue shall be five cents or each dog listed by him, to be paid out of the funds derived from the license tax on dogs upon the order of the board of supervisors.

Second. That in every case where the owner of the dog fails to pay, by the first day of July next succeeding the return of said lists the license tax provided for in the third section of this act, it shall be the duty of the constable of the district in which said delinquent resides, or, if there be no constable serving in said district, then it shall be the duty of the sheriff, or a deputy sheriff of the county in which the delinquent resides, to kill said dog, for which he shall receive a fee of fifty cents out of the funds hereinafter provided, and to that end the said constable, sheriff, or deputy sheriff shall obtain annually, during the month of July, from the county treasurer, a list of all delinquents under this act in his district, and shall within thirty days after receiving such list kill said dogs, unless the tax on them, together with a fee of twentyfive cents to said constable, sheriff, or deputy sheriff, is forthwith paid, and on his wilful or negligent failure to do so, when practicable, he shall pay a fine of five dollars for each dog he so fails to kill. The constable, or sheriff, or deputy sheriff, shall at the expiration

of the thirty days account to the treasurer of his county for all taxes collected by him under this section.

Third. That when said commissioners of the revenue shall have ascertained the number of dogs, they shall assess a license tax of fifty cents per head on all male dogs and all spayed female dogs, and one dollar per head on all unspayed female dogs, and the said sums so assessed shall be collected and accounted for by the county treasurer as county levies are by law directed to be collected and accounted for, and the treasurer shall keep a separate account of the fund arising from said tax. The said fund shall be, and the same is hereby, appropriated for renumerating the inhabitants of said counties for any loss they may sustain from dogs killing or crippling their sheep, lambs, 'or any other stock, and for paying for the expenses necessary to carry this act into effect; and any balance remaining on hand for any year shall be appropriated to the county school fund of public schools, or to the public road fund, as the board of supervisors may determine, to be used in accordance with the laws governing the disposition of such funds. \* \* <del>.</del>\*-\* \* \* \* \* 14

Twelfth. Provided, however, the provisions of this act shall not apply to any incorporated city or town of this State now or hereafter having a municipal dog tax law, or to any county having a special dog tax law: provided further, that the repeal of any special dog tax law of any county or town in this State now having such special law shall operate to place such county or town under the provisions of this act, with power in the board of supervisors of such county to adjust claims against said county or town under the said special law out of the funds derived from the operations of this act; and the boards of supervisors of the counties, and the councils of the town where there is a special law imposing taxes on dogs, may, by a vote of a majority of the members elected thereto, repeal and set aside such special law, and when so repealed and set aside the provisions of this act shall apply to such counties and towns. (Code, Sec. 501a)

143. Taxation of shares of stock issued by banks located in counties and cities.—First. Hereafter each county or city in which any bank, either national or State, is so located, may, subject to the conditions mentioned below, tax all the shares of stock issued by any such bank so located within its limits at the same rate as is assessed

upon other moneyed capital in the hands of individuals residing in such county or city.

Second. That in so taxing said shares the said county or city authorities, respectively, shall follow the mode of assessment and manner of collection prescribed by statute for the collection of State taxes upon said shares.

Third. Whenever any commissioner of the revenue, before closing his assessment rolls or tax lists, shall receive from the cashier of a bank furnishing a list of the holders of bank stock as required by law for the purposes of State taxation, or from the owner of any stock mentioned therein, a certificate of the commissioner of the revenue of the county or city of the State in which the owner of such stock lives, stating that certain shares of the stock mentioned in said list are owned by a resident of that county or city, and that the same have been returned for taxation for that year in such city or county, then the said commissioner of the revenue to whom the said list of the holders of such bank stock has been furnished shall deduct from the aggregate value of the shares set forth in said list the aggregate value of the shares mentioned in said certificate. The shares owned by non-residents of this State shall be taxed only at the place where the bank issuing the shares is located. (Code, Sec. 1040a)\*

144. Taxation of shares of stock issued by banks located in towns.—Each town in which any bank, either national or State, is located may tax all the shares of stock issued by such bank so located within its limits at the same rate as is assessed upon other moneyed capital in the hands of individuals.

In taxing said shares the said town authorities shall follow the mode of assessment and manner of collection prescribed by statute for the collection of State taxes upon said shares. (Code, Sec. 1040b)\*

145. Assessment of oysters for taxation; collection of tax.— It shall be the duty of each inspector of oysters, on the first day of October annually, to proceed to assess for taxation for State and county purposes all oysters planted or shells deposited for propagation of oysters in his county or district; he shall go upon and examine said oysters and shells and fix a valuation on the

If any person consider himself aggrieved by such assessment and valuation, he may apply for correction of the same under the provisions of sections five hundred and sixty-seven and five hundred and sixty-eight of the Code of Virginia providing for the correction of erroneous assessment of taxes. The inspector shall be summoned as a witness when the application is heard by the court. It shall be the duty of the clerk of the county forthwith to extend the amount on the return of the inspector of all taxes to be paid by each person for State, county, and school purposes on the same basis as other personal property is taxed, and the said clerk shall forthwith make out four copies of said assessment and return one on or before the first day of December to the inspector, deliver one copy to the county treasurer, forward the third to the Auditor of Public Accounts, and the fourth to the State Board of Fisheries. Note.—Segregation of the several kinds and classes of property for the purposes of taxation.—By chapter 85, page 119, Acts of Assembly, 1915, the State has segregated for the purposes of taxation the several kinds and classes of property, determining upon what subjects State taxes, and upon what subjects local taxes, may be levied. Under this act all taxable real estate, and all taxable tangible personal property enumerated in section 6 in schedule "B" of the act to raise revenue for the support of the government and public schools, etc.; also the tangible personal property of public service corporations (except rolling stock of corporations operating railroads by steam) are segregated and made subject to *local* taxation only. The act provides, however, "that there shall be continued for the year nineteen hundred and fifteen and until otherwise changed by law, the present *State school tax* of ten cents on every one hundred dollars of the assessed value of said real estate and tangible personal property, which tax shall be applied to the support of the public free schools for the equal benefit of all of the people of the State and to be apportioned on a basis of school population."

This act further provides that "all insurance taxes and licenses on insurance companies and all taxable intangible personal property, rolling stock of all corporations operating railroads by steam, and all other classes of property not hereinbefore specifically enumerated in this act, be and the same are hereby segregated and made subject to State taxation only; provided that nothing herein contained shall prevent any city from levying a tax upon said segregated intangible personal property assessed to the residents therein at a rate not to exceed thirty cents upon the one hundred dollars of assessed valuation thereof; nor to prevent the boards of supervisors of any county from levying a district road tax on all said segregated intangible personal property assessed to the residents in the magisterial district proposed to be taxed for district purposes to be used exclusively for the construction and repair of roads located within the magisterial district in which said levy is laid at a rate not to exceed thirty cents on the one hundred dollars of assessed valuation thereof (but this clause shall not be construed to authorize the board of supervisors of any county to levy such tax against the residents of an incorporated town which maintains its own roads, which town is located within such magisterial district), nor to prevent any incorporated town in this State which is exempt by statute or by the express provisions of its charter from the payment of district road taxes, or which maintains its own roads free of expense to the magisterial district in which it is located, from levying and collecting a tax on all said segregated intangible personal property assessed to residents therein at a rate not to exceed thirty cents on the hundred dollars of assessed valuation thereof; except that the capital of merchants shall not be subject to State taxation, but may be taxed locally as prescribed by law; and the shares of stock of banks, banking associations, and other institutions enumerated in section seventeen in schedule "D" of the act aforesaid, which shares of stock shall be taxed as provided by law."

Chapter 99, page 136, Acts of Assembly, 1915, authorizes boards of supervisors of counties and councils of cities and towns to adopt the State classification of the subjects of taxation as the same may now or hereafter be classified for the purposes of taxation by the State.

2. The said funds shall be used by the Virginia Agricultural and Mechanical College and Polytechnic Institute for the purpose of conducting demonstration work in the State of Virginia or in the several counties therein, so far as said funds will permit, as far as possible in connection and co-operation with the United States Department of Agriculture. The said fund may be used in the payment of salaries and necessary traveling expenses and other incidental expenses of State, district or local or county agents engaged in the said co-operative demonstration work, the object of which shall be to instruct farmers in improved methods of agriculture, embracing all crops made in the State, improved methods of horticulture, stock raising, and everything for the advancement of the agricultural interests of the State, by conducting demonstrations on farms, instructing and advising farmers on all technical agricultural subjects, and in all possible ways assisting them by carrying information from the agricultural college, the experiment stations and all other sources to the farmer.

3. It shall be the duty of the Virginia Agricultural and Mechanical College and Polytechnic Institute, in co-operation with the United States Department of Agriculture, to exercise great care

in the selection of demonstrators or county agents qualified to do the work, and to supervise their work and see that it is properly done through the State and district agents, and the said demonstrators or county agents may be authorized and required to assist farmers in every possible way by teaching and demonstrating to them improved agricultural methods, and advising them on agricultural methods, and all under such rules and regulations as may be adopted by the Virginia Agricultural and Mechanical College and Polytechnic Institute in its co-operative relation to the United States Department of Agriculture. The said county agents may be authorized to conduct boys' demonstration clubs and assist in the organization and conducting of girls' canning clubs, if deemed wise by the Virginia Agricultural and Mechanical College and Polytechnic Institute, and in such work the State Board of Education is hereby authorized to make such co-operative arrangements with the president of the Virginia Agricultural and Mechanical College and Polytechnic Institute as it may deem wise for co-ordination of such work with the county schools of the State.

The board of supervisors of the several counties of the 4. State are hereby authorized and empowered to appropriate out of the county funds for the support of such demonstration work in their respective counties such sums as the said boards may deem proper, the sums so appropriated to be used in co-operation with the Virginia Agricultural and Mechanical College and Polytechnic Institute, in paying the salary and expenses of demonstrator or county agent in the county; the appropriation to be supplemented by a sum or sums to be paid out of the funds above appropriated to the Virginia Agricultural and Mechanical College and Polytechnic Institute, and such funds as may be furnished by the United States Department of Agriculture, or which may be allotted from funds under its control, devoted to such co-operative work in the State of Virginia, as may be agreed upon. Any sums so appropriated by any county shall be paid out to the person selected to be the agricultural demonstrator or county agent in said county, in monthly payments, on vouchers to be approved by the State agent in charge of demonstration work in the State of Virginia, and countersigned by the president of said institution.

5. The provisions of this act are in anticipation of the passage of an act by the United States Congress, providing money for work of similar character within the several States, through the agricultural colleges receiving the benefit of the land grant, and upon the passage of any such act requiring the States to make an equal appropriation, the appropriations hereby made are declared to be an acceptance of the provisions of said act and the appropriation of money on the part of the Commonwealth of Virginia to meet funds allotted to this State from any such appropriation.

6. The Governor of the State of Virginia is hereby authorized, at his discretion, to call together for conference, the president of the Virginia Agricultural and Mechanical College and Polytechnic Institute, the State Commissioner of Agriculture, the president of the State Board of Agriculture, the State Superintendent of Public Instruction, the director of the Experiment Station at the Virginia Agricultural and Mechanical College and Polytechnic Institute, and the State agent in charge of the farm demonstration work, as outlined in this bill, and he may also request the attendance of such officers of the United States Department of Agriculture as may be particularly interested in the agriculture of the State of Virginia. At such conference the various forces may consider how their activities may be co-ordinated so as to avoid duplication, and how each may assist the other in field work so as to bring the best possible results. Each of the organizations represented is hereby authorized to enter into proper co-operative relationships with other agricultural activities within the State of Virginia as they deem best. At such conferences the Governor shall preside. The object of such conference shall be a united co-operative effort for the betterment of agricultural conditions in the State of Virginia.

7. Any balance in the hands or under the control of the united agricultural board, when this act shall take effect, shall pass to the credit of the Virginia Agricultural and Mechanical College and Polytechnic Institute and be disbursed as required by this act. (Acts 1914, pege 710)

182. Authorizing the board of supervisors of any county to contribute and expend a sum of money for the purpose of promoting agriculture in said county.—The board of supervisors of any county in this State are hereby empowered, in their discretion, out of the general county levy of said county, to apply and expend annually a sum not exceeding one thousand dollars in each year for the purpose of promoting agriculture in said county. (Acts 1910, p. 502; Acts 1912, p. 653)

The term of office of the members of said board shall be four years, or until their successors are appointed and qualify, and they shall be men learned in medicine and legal and active practitioners in the State of Virginia.

4. Preservation of records.—The board shall preserve a record of its proceedings in a book kept for that purpose, which shall show the name, age, place and duration of residence therein of each applicant for a license, the time spent in medical study in respective medical schools, and the year and school from which degrees were granted; said record shall also show whether applicants were granted a certificate or rejected, and shall be prima facie evidence of all matters contained therein. The secretary of the board shall, on the first day of March of each year, transmit a copy of said record, together with a photograph of each license to the superintendent of the Board of Education of the State of Virginia for permanent record, and certified copies of the said record, under the hand and seal of the secretary of the board or of said superintendent, shall be admissible as evidence in all courts of this State.

8. Admission to examination; power of board.—All applicants for certificates to practice medicine in this State after the passage of this act, must successfully pass an examination before the board of medical examiners established by this act. The said board shall admit to examination any candidate who pays a fee of twenty-five dollars, and submits evidence verified by affidavit and satisfactory to the board, that he:

(a) Is twenty-one years of age or more.

(b) Is of good moral character.

The above clause of subsection (d) shall not apply until April first, nineteen hundred and fourteen.

The board may in their discretion accept as the equivalent of the first year of requirement (d) evidence of graduation from a registered college course, provided that such college course shall have included not less than the minimum requirements prescribed by the board and by the State Board of Education for such admissions to advanced standing.

The board may also at their discretion admit conditionally to the examination in anatomy and histology, physiology and embryology and chemistry, applicants nineteen ears of age, or more, certified as having studied medicine at some registered medical college not less than two years, including two satisfactory courses of at least eight months each, in two different calendar years, and of having passed in all of those medical branches at the said college, but the said college must be registered as maintaining at the time a standard satisfactory to the State Board of Education: provided, further, that such applicant must meet requirements b and c.

The board may also, at their discretion, accept as the equivalent of any part of requirements c and d five or more years of legal and reputable practice, and such candidate shall be exempted from taking the examinations in anatomy and histology, and physiology, embryology and chemistry.

The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the State Board of Education that before beginning the first annual medical course counted toward the degree, he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the State Board of Education as fully equivalent, or held a State Board of Education medical student certificate; or passed State Board of Education examinations securing sufficient academic counts, in accordance with the standard of the Association of American Medical Colleges, or their full equivalent, before beginning the first annual medical course counted toward the degree. . . . . . 9. Such inspection shall be made without notice to the officials whose accounts are to be inspected, and it shall be the duty of the official whose books and accounts and vouchers are being inspected to produce such books, vouchers and accounts and give the State Accountant, or his deputy, all necessary help and aid in making such inspection. Should any official fail to perform the requirements of this section he shall be guilty of a misdemeanor. (Acts 1910, page 243)

17. The State Accountant, when requested by the board of supervisors of any county, or the council of any city or town of the Commonwealth, shall make and establish a system of bookkeeping and accounting for the treasurers, clerks of the courts and school boards of such counties and cities, and when so requested he shall examine the books and accounts of such officers, and report to the said supervisors or councils the findings of his investigation, if it relates to the affairs of such county or city, and to the Auditor of Public Accounts if it relates to the revenue of the State.

18. The cost of such service as may be so required shall be borne by the county and city receiving the service of said accountants, and shall not exceed an amount sufficient to reimburse the State. (Acts 1914, page 202)

## Of Public Free Schools In Cities and In Towns Constituting Separate School Districts

185. Their establishment and management.—An efficient system of public free schools shall be established and maintained in all cities and towns constituting separate school districts of the State.

The public free school system shall be administered by the following authorities, to-wit: A State Board of Education, a Superintendent of Public Instruction, division superintendents of schools and city school boards. The provisions of chapter sixty-six, except as provided in this chapter, shall be applicable to such cities and towns in like manner as to the counties of the Commonwealth, and city and town school boards, officers, trustees and teachers, as well as city and town treasurers, are charged, with reference to the public free schools of such cities and towns, with the duties, vested with the powers of and subject to the limitations and penalties imposed upon similar officers, boards, trustees and treasurers in the counties by chapter sixty-six, unless otherwise provided. (Code, Sec. 1522)

Note.—Chapter 66 of the Code embraces sections 1427-1521, and chapter 67, sections 1522-1540, both inclusive.

186. Classification of cities.—Cities which have a population of ten thousand and upwards shall, for school purposes, be known as cities of the first class, and cities which have less than ten thousand shall be known as cities of the second class; but the provisions of the law concerning cities shall be applicable to both classes alike, unless the one or the other class be specifically referred to. (Code, Sec. 1523)

187. Number and bounds of school districts.—The school boards of the respective cities shall have power, subject to the approval of the common council, to prescribe the number and boundaries of the school districts; but until such provision is made every such city which is not divided into wards shall constitute a single school district, and in every city which is divided into wards each ward shall be a school district. The number and boundaries of districts shall be duly reported to the Superintendent of Public Instruction and recorded in his office, and also in that of the clerk of the corporation court or in that of the circuit court if there be no corporation court. (Code, Sec. 1524)

188. Magisterial and school districts; levies in city of second class.—Such city of the second class, when declared to be such, shall constitute one separate magisterial district and one separate school district of the county in which it is located; and it shall continue to elect all district officers for such magisterial district in the manner provided by law; and the school trustees and other school officers of such school district, whether elected or appointed, shall bear the same relation to the county school board as that existing before the city is declared to be such. There shall be but one superintendent of schools for such city and the county in which such city is located.

The board of supervisors of such county shall have the same power and authority to levy a tax for county, school and district purposes, upon all property within the corporate limits of such city, as it has upon property in the remainder of the county without the corporate limits of such city, except road taxes. And all State, county, school and district levies, except road taxes or levies, shall continue to be collected and disbursed by the county treasurer in the same manner as if such city had not been declared to be such.

As soon as such municipality shall have been declared to be a city, all property within any annexed territory shall at once be and become liable to the regular town or city tax rate, and all revenue derived from such new territory by such city, whether by way of taxes, licenses, fines or otherwise, shall be paid into the city treasury and be expended under the direction of the common council of said city in the same manner and for the same purposes as the other funds of the city are or shall be expended. (Acts 1908, page 7)

,189. School board of city a corporation.—The school trustees of each city shall be a body corporate under the name and style of "The school board of the city of \_\_\_\_\_," by which name it may sue and be sued, contract and be contracted with, and purchase, take, hold, lease, and convey school property, both real and personal. The title to all school property, both real and personal, within the city, shall vest in the said board, except, by mutual consent of the council and school board the title to property may vest in the city. The trustees of the several districts, where there are more than one, shall have no organization or duties except such as may be assigned to them by the consolidated body. (Code, Sec. 1525)

190. Territorial jurisdiction of the school board in cities and towns constituting a separate school district; its clerk, his pay.— The official care and authority of the school board shall cover all territory included in the corporate limits of the city or town constituting a separate school district, and also shall cover all school property located without and contiguous to the corporate limits of such city or town, when the title to said property is vested either in the school board of such city, as a body corporate, or in the city. The majority of its members shall constitute a quorum. It may, in its discretion, appoint a clerk, who may, or may not, be a member of the board; and shall make by-laws and regulations for its own government and for the management of its official business, so far as they do not conflict with the provisions of the law. The salary of said clerk shall be fixed by the school board. (Code, Sec. 1526; Acts 1914, page 498)

191. Who ineligible as division superintendent or clerk of school board.—No mayor, member of council, or treasurer or other officer of a city, town or county shall be eligible to the office of division superintendent of schools of such city, town or county, or the clerk of a school board of such city, town or county: provided, that nothing herein contained shall apply to towns of less than one thousand inhabitants. (Code, Sec. 1527; Acts 1912, page 524)

192. School trustees.—The council of each city shall appoint three trustees for each school district in such city, whose term of office shall be three years, respectively, and one of whom shall be appointed annually. If a vacancy occurs in the office of trustee at any time during the term the council shall fill it by appointing another for such part of the term as has not expired. The trustees in office when this act takes effect shall continue in office until the terms for which they were respectively appointed shall have expired by limitation. Within thirty days preceding the day on which the term of said trustees shall expire by limitation, and within the like number of days preceding the day on which the term of any trustee shall expire by limitation in any subsequent year, such council shall appoint a successor to each such trustee in office, whose term shall commence when the term of his predecessor shall have expired, provided the office of any such trustee has not been abolished in redistricting the city, and provided that of those first appointed under this chapter one shall be appointed for a term of one year, one for a term of two years, and one for a term of three years. (Code, Sec. 1528)

193. Power and duty of council.—The council of each city shall have power, and it shall be its duty, on or before the fourth Monday in July in each year, or as soon thereafter as practicable, to levy a tax upon the real and personal property in the city of not to exceed fifty cents on the one hundred dollars of its assessed value, or the council may, in its discretion, make an appropriation in lieu of such levy. (Code, Sec. 1529)

194. Board to submit estimates to council.—It shall be the duty of the school board of every city, once in each year, and oftener if deemed necessary, to submit to the council, in writing, a classified estimate of what funds will be needed for the proper maintenance and growth of the public schools of the city, and to request the council to make appropriation accordingly. (Code, Sec. 1530)

195. Apportionment of State funds; how and by whom kept and disbursed.—The State school funds shall be apportioned to cities separately from their counties, and all funds designed for the benefit of public free schools therein shall be deposited with the treasurers of such cities and kept by said treasurers in separate accounts, and disbursed only on orders from the city school boards, respectively. (Code, Sec. 1531)

196. Pay of division superintendent.—The division superintendent of a city shall receive pay from the State in like proportion as other division superintendents of schools, but nothing herein shall be construed to limit the amount of additional remuneration which he may receive from the council of the city within which he acts. (Code, Sec. 1533)

197. When to teach.—The division superintendent of a city may teach in a public school ex-officio when requested so to do by the city school board. (Code, Sec. 1534)

198. Powers and duties of boards of trustees; qualification of trustees, and so forth; a corporation.—Every school trustee shall, at the time of his appointment, be a resident of the school district for which appointed, and if he shall cease to be a resident thereof his office shall be deemed vacant. Before entering upon the discharge of the duties of his office he shall take and subscribe the oaths prescribed for officers of the State before the corporation or the circuit court, or, in vacation, before the judge or clerk of said court, and the clerk of the said court shall make in his record book a minute of the qualification of said trustee.

No federal or State officer, except a notary public; no city officer, no member of council, or any officer thereof, shall during his term of office be chosen or allowed to act as a school trustee; but this provision shall not have the effect of prohibiting a commissioner in chancery or commissioner in bankruptcy, or member of the board of health, from holding such office.

Third. To employ teachers and dismiss them when delinquent, inefficient, or in any wise unworthy of the position: provided, that no school board shall employ or pay any teacher from the public funds unless the teacher shall hold a certificate in full force, according to the provisions of section fourteen hundred and seventy-six [section 78 of school law] of the laws relating to the public free schools in counties: and provided further, that it shall not be lawful for the school board of any city or of any town constituting a separate school district to employ or pay any teacher from the public funds if said teacher is the brother, sister, wife, son, or daughter of any member of said board.

Fourth. To suspend or expel pupils when the prosperity and efficiency of the school make it necessary.

Sixth. To establish high and normal schools and such other schools as may, in its judgment, be necessary to the completeness and efficiency of the school system.

Seventh. To see that the census of children required by sections fourteen hundred and sixty-two and fourteen hundred and sixty-three of the Code of Virginia [sections 43 and 44 of school law] is taken within the proper time and in the proper manner.

## **Regulations of the State Board of Education**

(Prescribed pursuant to the provisions of Sec. 132 of the Virginia Constitution)

#### Superintendent of Public Instruction

1. *His duties.*—The Superintendent of Public Instruction shall be the chief executive of the public free school system, upon whom shall devolve the following duties, to-wit:

First. He shall take care that the school laws and regulations be faithfully executed, and shall use all proper means to promote an appreciation and desire of education among the people.

Second. It shall be his duty to determine the true intent and meaning of the school laws and regulations, and to explain to the division superintendents and other school officers the several duties enjoined thereby upon them, and his decision shall be final, unless and until reversed by the State Board of Education.

Third. He shall prepare suitable registers, blank forms and regulations for making all reports and for conducting all necessary business under the school law, and, by circulars and otherwise, shall give such information and instructions as he shall deem conducive to the proper organization and government of the public free schools and the due execution of their duties by the school officers.

Fourth. He shall require of division superintendents detailed reports annually, and as often besides as he may deem proper; and he may require special reports at any time of any officer connected with the school system. He may also appoint persons, at his discretion, to visit or examine all or any part of the public free schools in the county wherein such persons reside, and report to him touching all such matters respecting their condition and management, and the means of improving them, as he may indicate; but no allowance or compensation shall be made to such persons for their services or expenses.

Fifth. It shall be his duty, as often as may be consistent with his other official engagements, to make tours of inspection among the public free schools throughout the State.

Sixth. He shall decide all appeals from decisions of division superintendents of schools, when made in prescribed form; he may, however, in his discretion, refer the matter to the State Board of Education, whose decision shall always be final. But appeals shall lie in all cases from the decisions of the Superintendent of Public Instruction to the State Board of Education.

Seventh. Copies of his decisions and of the decisions of the board, as well as of all his official papers, shall be kept on file in his office, and be open to the inspection of persons concerned.

Eighth. He shall also preserve, in convenient arrangement in his office, all such documents from other States and governments, books or pamphlets on educational subjects, school books, apparatus, maps, charts, and the like, as have been or shall be furnished gratuitously for public use, or purchased for the use of his office.

Ninth. He shall annually, and as often besides as he may deem necessary, prepare a scheme for apportioning the money appropriated by the State for public free school purposes among the several counties and cities, on the basis of the number of children between the ages of seven and twenty years in each school district, as ascertained from the census last taken, or, in default of that, from the latest and best official authority accessible to him. This scheme shall be accompanied by summaries of the data on which the same is founded, and a copy thereof, and of the summaries aforesaid, shall be furnished to the Second Auditor, to each division superintendent of schools, and to each county and city treasurer. Tenth. He shall provide for his office a suitable official seal, with which he may authenticate official documents.

Eleventh. He shall annually submit to the State Board of Education, on or before the first day of November, a detailed report of his official proceedings for the year ending the thirtieth day of June preceding, exhibiting a plain statistical account of receipts and expenditures for public free schools, and of their condition and progress, showing the number of children, male and female, white and colored, respectively, in the State, and in each county," city, and school district, between the ages of seven and twenty years, the average and total number at school during the year, wages paid teachers, the amount of each branch of school expenditure severally, the cost of education per scholar, and whatever else may tend to show the degree of success and usefulness of the system; he shall also be at liberty, and it shall be his duty, to offer suggestions to the State Board of Education and to the General Assembly concerning matters pertaining to his department at any time that the public interests seem to him to require it.

### Examination and Certification of Teachers

Note.—The distinguishing feature of this system of State examination and certification of teachers is found in the provision whereby the services of division superintendents are utilized in a dualistic or two-fold examination of the papers. The papers are valued first by the division superintendent in whose county or city they are prepared and afterwards by a member of the State Board of Examiners, which board is composed of division superintendents and leading teachers, one member for each subject embraced in the examination. As this board prepares the examination questions and passes finally on the answer papers, as nearly perfect a State standard as possible is attained. Upon the results of the examinations certificates are issued by the Department of Public Instruction, which certificates must be endorsed by the superintendent of the division in which the holders desire to teach. The board meets twice a year in Richmond following the April and July examinations, and the papers are valued and verified and all reports or certificates are placed in the hands of the applicants and division superintendents within twenty or thirty days after the examination closes.

The requirements for first, second, and third grade certificates have been made simpler, and the provisions for renewing first and second grades less burdensome. Additional certificates have been provided for those who have had the benefit of higher training in order to relieve teachers as much as possible of the burden of examination. These certificates cover every worthy character of training provided in Virginia, it being the design of the State Board of Education to have each certificate show on its face the basis on which it is granted.

2. State board of examiners.—A State Board of Examiners shall be appointed by the board, upon nomination of the Superintendent of Public Instruction, and shall serve at the pleasure of the board or the Superintendent. The Board of Examiners shall prepare questions for such examinations of applicants for certificates to teach as the Superintendent of Public Instruction may direct, pass finally upon the answer papers of such applicants, and perform such other duties as the Superintendent may require. The compensation of the examiners shall be fixed by the board.

3. When examinations held; notice given.—1. Two uniform examinations shall be held annually in the various school divisions—one in April, the other in July.

<sup>2.</sup> Examinations shall also be held at the State Summer Schools annually in July.

<sup>3</sup>· Examinations on the Reading Course for the extension of certificates shall be given on the last day of the April examination as well as on the last day of the July examination.

4. Examinations on high school and special subjects shall be given in April as well as in July.

<sup>5.</sup> Examinations held in the various school divisions shall be under the supervision of the division superintendents; those at the summer schools under the supervision of the conductors thereof; all to be conducted in accordance with such regulations as the Superintendent of Public Instruction may prescribe.

<sup>6</sup>. The Superintendent of Public Instruction shall name the days on which all examinations shall be held and give due notice thereof.

<sup>7.</sup> Division superintendents shall give notice at least thirty days in advance of the time fixed for examinations to be held in their respective divisions.

This certificate shall continue in force for five years, and may be renewed for a similar period from time to time, as provided in regulation 51. It entitles the holder to teach all the elementary school branches, but only the high school branches named in the certificate.

The certificate and other credentials which entitle the applicant to enter upon and pursue the course of study herein outlined must be presented to and approved by the conductor of the summer school before the applicant can be registered and admitted to classes.

The Summer School Professional Certificate—College Grade, entitles the holder to teach all the elementary branches, but only the high school branches named in the certificate.

In all cases a statement of each professor under whom the course is pursued, to the effect that the applicant is highly proficient in his branch' must accompany the final report.

The following "Content Table" gives the number of hours or recitation periods required in each branch, and in addition thereto the applicant must complete a course of thirty hours in educational psychology and the principles of teaching:

N. B.—This course must not be given at any school in Virginia unless it is specially mentioned and advertised in its literature; no supposedly equal course at any other than a designated summer school will be recognized or accepted by the Department of Public Instruction.

51. *How certificates may be renewed.*—All certificates, except those mentioned in regulations 38, 42, 43, and 48, shall be renewed under the following requirements and conditions:

1. The holder must furnish evidence that he has been a successful teacher.

2. He must make a written statement on the back of his certificate to the effect that he has read five books of the State Reading Course (giving the names of the books) during the life of the certificate to be renewed or since its date of issuance. These books may be chosen from any of those mentioned in the State Reading Course, whether adopted for the current year or not.

3. In addition to the foregoing, he must either attend an approved summer school or institute for at least twenty consecutive days during the life of the certificate or within sixty days after it expires, and must diligently pursue the course of study (taking not less than three classes) prescribed by the conductor of such school; or he must pass a successful examination on at least two of the books of the Reading Course, unless the History of Education is chosen, in which event no second book will be required.

Note.—Notwithstanding what is stated in the preceding paragraph, it is stipulated, and must be understood, that no attendance upon a summer school, which is used and counted in earning or completing a certificate, may be offered for the renewal of said certificate. 4. The examinations prepared for the Reading Course from year to year include questions only on the History of Education and the books adopted for the school year immediately preceding the date of the examinations.\*

52. Old professional certificates.—Certificates issued upon the professional course of study prescribed by the State Board of Education in 1905 and revised in 1907 may be renewed, under the provisions of regulation 51, as Professional First Grade Certificates.

53. Service certificates.—(a) Virginia changed from a county to a State system of certification in 1905. In order that the transition might be made with as little friction and shock to the system as possible, a service certificate, called a Special First Grade Certificate, was in 1908 issued to every teacher who had held a first grade certificate six years immediately prior to 1907, and who presented to the State Board of Examiners satisfactory evidence of successful experience in the public schools of Virginia for the said six years, accompanied by a recommendation from the superintendent of the division in which he last taught. This certificate continued in force for five years, and it was provided that it might be renewed for a similar period from time to time as provided in regulation 51. It entitles the holder to teach only in the elementary schools.

(b) During 1912-1913 a further step was taken to bring the high schools also under a regular system of certification. This necessitated the establishment of a system of service certificates for high school teachers. Every teacher who had taught any high school branch successfully for at least three years prior to July 1, .1913, while holding a junior State normal, high school training, summer school professional, professional first grade, industrial first grade, high school or first grade certificate; was issued a "special service certificate" restricted to the branches actually and successfully taught as aforesaid. It was provided that this certificate should continue in force for five years and that it might be renewed for a similar period from time to time as provided in reg-

<sup>\*</sup>Note.—All applications for renewal or extension of certificates must be sent through the division superintendent, who will be furnished with suitable blank forms for that purpose. All teachers who take the State examination on the Reading Course are required to fill out Form E- No. 2 R, and attach to same the certificate to be renewed.

ulation 51. This certificate entitles the holder to teach the elementary branches and the high school branches named therein.

54. Life diplomas.—Under the provisions of regulation 29, page 84, of the School Laws of 1901, life diplomas were issued on rigid and comprehensive State examinations. These life diplomas are still in full force and effect, and teachers holding them are authorized to teach in both high and elementary schools.

55. Division of examinations—Provisional certificates.—Two examinations shall be held each year—one in April and the other in July, and applicants who desire to divide the examinations may do so under the following provisions:

(a) An applicant may take part of the examination for a First, Second, or Third Grade Certificate in the spring and the remainder in the summer, provided he attends a Virginia summer school or institute for at least twenty days in the meantime.

(b) An applicant may take one-half or more of the required subjects for a First or Second Grade Certificate at the summer examination immediately at the close of the summer school or intitute where he has been in attendance for at least twenty days. If he shall attain not less than 85 per cent. on each of seven of the subjects required for a first grade certificate, or not less than 75 per cent. on each of six of the subjects required for a first grade certificate, including arithmetic and grammar in both cases, all other requisites being fulfilled, he shall be given a Provisional First Grade, or a Provisional Second Grade Certificate, as the case may be, good for one year only and not subject to renewal. The examination on which a Provisional First or a Provisional Second Grade Certificate is issued must be completed at the next spring or summer examination, when the results of both examinations will be combined and an appropriate certificate, bearing the date of the provisional certificate, will be issued under the general rules and regulations pertaining to certificates. In every case, the examinations to be combined must be taken within fifteen months of each other.

(c) When the course is divided, as stated in the preceding paragraph, only two examinations may be combined, and one of these must be taken at a State summer institute after a regular attendance of at least twenty consecutive days (one hundred recitation periods of at least 40 minutes each). No Provisional Certificate will be issued on that part of the examination taken prior to the session of the summer institute referred to in this paragraph. Note also what is stated in the next paragraph on the subject of dividing examinations.

(d) The privilege of dividing the course for a First, Second, or Third Grade Certificate shall also be granted to any teacher who completes in a satisfactory manner 100 periods of work, as aforesaid, in the spring course of a normal training high school, or a similar amount of work in a registered Virginia normal school, during the regular term, provided the course is approved by the Department of Public Instruction. The first part of the divided course may be taken at either the spring or summer examination next succeeding the spring course in the normal training high school or State normal. If taken at the spring examination, it may be completed at the summer examination or at the following spring or summer examination without attendance upon a summer school or institute.\*

(e) Only two examinations may be combined for a Second or Third Grade Certificate, but, when a teacher, by a combination of two examinations (one of which was taken at a summer normal after an attendance of 20 days thereon), has made an average of 85 per cent. on the twelve subjects required for a Second Grade Certificate, not falling below 70 per cent. on any subject, he may combine these grades with a third examination on the three added subjects required for a First Grade Certificate (which are elementary algebra, either physical geography or agriculture, and either general or English history); provided, however, that the third, or last, examination comes within fifteen months of the second examination. In no case will a combination of three examinations be allowed unless one of the examinations is taken at a summer school after an attendance of at least twenty days thereon.

(f) On account of the great amount of investigation and bookkeeping involved, the Department of Public Instruction cannot undertake to duplicate reports of examinations that may have been lost or destroyed by applicants desiring the benefits of a combination, and an applicant who seeks the advantages offered by this regulation must attach the report of the former examination to be combined to Form E—No. 2 when he takes the second examination.

56. Certificate altered or erased to be returned to Department. Any certificate on which an alteration or erasure appears must be

<sup>\*</sup>Note.—In no case will a combination be made unless the applicant attaches to Form E-No. 2 a certificate of Normal attendance and former examination report.

taken up by the division superintendent and forwarded to the Department of Public Instruction.

57. List of certificates which entitle holders to teach high school branches.—The attention of the division superintendents and trustees is called to the following list of certificates which entitle the holders to teach high school branches:

Professional University Certificate,—issued to the holder of a degree from a graduate school of a registered university, based upon a curriculum which requires at least 10 per cent. of professional work for such degree.

Professional Collegiate Certificate,—issued to the holder of a baccalaureate degree from a registered college, based upon a curriculum which requires at least 10 per cent. of professional work for such a degree.

State Normal School Certificate,—issued to the holder of a diploma from a registered State normal school which requires at least two years of professional work—not less than twenty hours per week during each year—based upon the standard four-year high school course, which must in every case represent not less than sixteen units of work.

City Normal School Certificate,—issued to the holder of a diploma from a registered City normal school which requires at least two years of professional work—not less than twenty hours per week during each year and based upon the standard four-year high school course, which must in every case represent not less than sixteen units of work.

State Military Institute Certificate,—issued to the graduate of a registered State military institutę.

State Polytechnic Institute Certificate,—issued to the graduate of a registered State polytechnic institute.

Special Certificate,—issued to a student of any accredited university or college in any branch in which he holds a diploma or certificate from such university or college, granted for the completion of at least two years of work of college grade.

Special Certificate,—issued upon State examinations.—See regulation 50, sub-section (c).

Summer School Professional Certificate—College Grade,—See regulation 50, sub-section (d).

58. Suggestions as to rank of certificates.—For the convenience of trustees, it may be added that the Department regards the first class high school certificate as being of equal rank with the first grade certificate, and the industrial second grade certificate as being of intermediate rank between the first and second grade certificates. The certificates named in regulations 27-55, inclusive, are of higher rank than a first grade certificate, their relative value varying according to the grade taught and the character of work required, to be determined in each case solely by the district or city school board. These suggestions are made for the benefit of boards that desire to pay according to certificates.

59. Notice to applicants as to change of terms of renewal of certificates.—Applicants for certificates are particularly notified that the terms upon which any certificate is to be renewed will be the terms stated in the latest regulations and published literature of the State Board of Education at the time the certificate is presented for renewal, provided that every teacher will be allowed opportunity to adjust himself to any new terms or conditions and will be credited with work done under previous conditions as justice and equity may require.

# Classification of Institutions Granting Baccalaureate or Graduate Degrees, etc.

60. Definition of a university.—The board will register as a university an institution (a) which requires for admission the completion of the curriculum of a standard high school with a four years' course, or in other terms, the completion of a course equivalent to not less than fourteen five-hour units: (b) which contains as a part of its organization a college of literature and science, as defined below; (c) which contains one or more professional schools, as parts of its organization, in each of which an adequate professional course, based upon a preparation not less than that represented by the completion of a standard four-year high school course is offered; (d) which contains a graduate school, as a part of its organization, in which adequate courses leading to the degrees of master of arts and doctor of philosophy are offered.

61. Definition of a college.—An institution to be registered as a college must have at least six professors giving their full time to college work, a course of four full years in liberal arts and sciences, and must require for admission the completion of the curriculum of a standard high school with a four-years' course, or in other terms, the completion of a course equivalent to at least fourteen five-hour units, in addition to the usual pre-academic or grammar school studies.

62. The five-hour units.—The five-hour units mentioned above shall be the units defined in the regulations regarding admission to the University of Virginia.

63. Conditioned students.—No college or university shall admit a student under twenty years of age to partial standing, as a conditioned or irregular student, unless the student offers at least ten five-hour units, as defined in regulation 62; and a student so admitted shall absolve the units on which he is conditioned, within two years of the date of his registration. No work counted toward the removal of entrance conditions can also be counted for a degree.

64. Special students.—A student at least twenty years of age may be admitted as a special student, not candidate for a degree, to a university or college, without satisfying in full the usual entrance requirements [see regulations 60, 61 and 63]; provided (i)that he is not admitted to classes for which entrance examinations are required, unless he passes such examinations; and (ii) that he gives proof of adequate preparation for the course sought.

65. Advanced standing.—Advanced standing shall be granted by a registered college for work done at a secondary school only after the candidate shall have passed a written examination, held by the college, on the work in question. The examination should be held at the college before the candidate is admitted to the advanced class in question. However, the candidate may be admitted to the advanced class tentatively, provided that the examination on the preliminary work is held within four weeks of the time that the candidate enters provisionally the advanced class; and provided that if the candidate fails on the examination, he shall at once take up in the regular college class the work for which credit was requested.

66. Junior college.—On and after June 1, 1914, only three grades of academic institutions above the grade of the high school, viz., the junior college, the college, and the university, will be recognized in this State. An institution to be registered as a junior college must present satisfactory evidence that it is doing at least the freshman and sophomore work of a standard college. The junior college may confer a diploma of graduation, but shall not confer any titled degree.

67. Credits for work prior to registration of institution.—Any applicant for a teacher's certificate who graduated from a registered college (or junior college) prior to the registration of that institution, shall be required to submit from the president of the college, the course completed by said applicant, which course, if found equivalent in grade and content to the present course, shall be the basis on which a certificate may be granted.

Graduates from higher institutions of Virginia, or other States, who apply for certificates to teach, may receive credit for any college or normal work done since 1890. The Department of Public Instruction is authorized to accept for credit such courses as, since this date, meet the requirements laid down in the regulations govorning certificates.

Graduates of foreign institutions applying for Virginia Certificate Credits shall be allowed proper credit in the discretion of the State Superintendent after an investigation of the standing of their schools.

76. Apportionment of funds.—Whenever the treasurer reports county school money on hand, or the superintendent knows that it should be, the superintendent shall immediately take steps to have said fund apportioned to the several districts as provided by section 1447, sub-division 3, of the Code of Virginia [section 39 of school law], and shall notify the district clerks, in writing, of the amount apportioned to their respective districts, as well as the amount of district tax in the hands of the treasurer belonging to their districts.

In case such decisions are not complied with, the division superintendent shall inform the Superintendent of Public Instruction thereof, and state the circumstances connected therewith.

81. Penalty for failure to furnish information.—Should any division superintendent of schools fail to furnish by the time prescribed by the Department of Public Instruction such information as may from time to time be called for by said department, by letter, circular, or otherwise, he shall be liable to a fine of one dollar for every day's delay, to be deducted from the salary of such superintendent: provided, the whole amount of such fine shall not exceed one month's salary of such superintendent and the same shall be imposed by the State Board of Education after notice to the party concerned.

85. To hear appeals.—In all cases not otherwise provided for, an appeal may within ninety days be taken to the division superintendent concerning the acts of any person connected with the school system or the action of any school board within his bounds, by any teacher or school officer, or by five or more interested heads of families who may feel themselves aggrieved, and from the division superintendent of schools to the Superintendent of Public Instruction, who, if he cannot satisfactorily adjust the same, shall, in his discretion, grant an appeal to the State Board of Education, and that board shall finally decide all questions at issue.

The application for such appeal, and all evidence in support of or in opposition thereto shall be in writing: provided, that the State Board of Education may, in its discretion, after an appeal is granted to such board, hear oral testimony upon any issue presented by the appeal. It shall be the duty of the superintendents to preside over these county institutes. They shall also endeavor by all proper means to promote an appreciation and desire for education among the people.

89. Provision for a patrons' day.—The superintendents shall require the principal of each school in his division to have a patrons' day, to be held on the school premises during the school term. On this day all patrons shall be invited and suitably entertained by school exercises. Advantage shall be taken of this day to give the patrons full information of the conditions and needs of the schools.

91. Trustee to act as division superintendent of schools.—In case of any vacancy in the office of division superintendent of schools occurring when the State Board of Education is not in session, the Superintendent of Public Instruction is authorized to designate a school trustee of the division to serve as superintendent until an appointment is made by the State board.

As soon as the oaths shall have been taken and subscribed before the division superintendent of schools, or any other officer authorized to administer an oath, and a minute of said qualification entered of record in the clerk's office of the circuit or corporation court, in form prescribed by the Superintendent of Public Instruction, the form shall be returned to the clerk of the school trustee electoral board.

94. Stated meetings.—District school boards shall hold stated meetings, the exact date of such meetings to be fixed by the boards. Special meetings may be called by the chairman, or by the other two members of the board, of which all the members shall have due notice.

95. In all cases teachers must be elected, and terms of contract with prescribed, at a regular or called meeting of the board.

96. Contracts with teachers; how executed.—District boards must enter into written contracts with teachers before the teachers enter upon the discharge of their duties; but said boards shall not enter into a contract with any person to teach a public school until said person presents a certificate of as high grade as the school for which he applies. Contracts with teachers shall be executed on behalf of the board by the clerk unless the board shall designate some other member thereof to execute the same. 97. Penalty for failure.—Should any district school board fail to enter into written contract with any teacher employed in the district, in form prescribed by the Superintendent of Public Instruction, the members of such board thereby subject themselves to a fine of not less than five nor more than fifty dollars for each offense.

98. Report to superintendent.—Boards of school trustees shall, immediately upon contracting with a teacher, report the fact in writing to the division superintendent, giving the teacher's name and post-office, the number of the school he is to teach, and the amount of salary agreed to be paid, in form prescribed by the Superintendent of Public Instruction. This salary, if confirmed by the division superintendent, shall not be increased or diminished during the year without his written consent.

99. Election of teachers by patrons.—While the district board has full authority to employ teachers, the board may elect to submit the question of a teacher to the patrons of a school, in which case the proceedings shall be governed by the following regulations:

First. The board shall call a meeting of the patrons by due proclamation and by posting a notice of the time and place of meeting at least ten days before it is to be held on the front door of the school-house and at three of the most prominent and convenient places in the district. At this meeting the chairman, or some other member of the board, shall preside, if present; if no member of the board be present, the meeting shall elect a chairman and also a secretary.

Fourth. The election shall be by ballot unless otherwise determined by the meeting.

Fifth. No teacher shall be eligible to be voted for unless he presents to the meeting a certificate of qualification issued to him according to law and in full force at the time of such meeting.

Sixth. Before voting for a teacher, the patrons must pledge themselves to support the one selected by the meeting.

Seventh. Immediately upon the adjournment of the meeting, the secretary thereof shall report the proceedings to the chairman of the district board, who, if a teacher has been elected, shall cause a contract to be immediately given him by said board.

Eighth. In case a majority of the children were not represented at the meeting, the board may either call another meeting or declare its determination to elect a teacher regardless of the action of the patrons; but if a majority of the children were represented at the meeting, then the board must be governed by its action.

100. Length of daily session.—The time of opening and closing school shall be prescribed by the district board of school trustees, subject to the approval of the division superintendent: provided, that where an intermission of thirty minutes or more is given no school shall open later than 9 o'clock a. m., nor shall any school be taught less than five hours each school day, including the necessary time for appropriate opening exercises. The time of opening and closing schools, with the intermission to be given, must be specified in contracts made with teachers.

101. Board may close school.—The board of school trustees of any school district in which a public school has been closed for sufficient cause before the expiration of period for which it was required by contract to continue, is hereby authorized, with the written approval of the division superintendent, to pay the teacher of every such school as much of his salary as may be due for the time the school was taught.

102. Estimate of funds.—At the March meeting every district school board shall prepare an estimate showing the amount of money which will be needed in the district during the next school year for providing school-houses, furniture, apparatus, text-books for indigent pupils, and all other lawful means and appliances needful for the successful operation of the schools. Said estimate shall be filed with the division superintendent, to be by him laid before the county school board.

103. Disposition of school funds.—The proceeds of State and county school funds must be used exclusively for the pay of teachers; provided that if, after a fair scale of salaries for teachers has been provided, there remain any residue, the same may be used for the pay of drivers of school wagons. The district school fund arising from the district school tax is under the control of the district school board, and shall be used for building and furnishing school-houses and defraying the contingent expenses of the schools of the district. The district fund should not be used for any other purpose until the district has been provided with comfortable, sightly, and well furnished school-houses. Any residue of the district funds should be used, as far as possible, for the pay of teachers.

104. School holidays.—At the annual meeting of the county school board in August, district boards shall declare what days shall be designated as holidays for the next school year, which days shall be approved by the county school board and must be the same throughout the county. The division superintendent, upon the opening of the schools, shall notify teachers of the days so fixed.

105. Report of school work.—At the August meeting the several boards shall prepare a detailed report, embracing a full statement of all the school work done in the respective districts for the school year ending the thirtieth of June preceding, in such form as may be prescribed by the Superintendent of Public Instruction. This report shall be delivered to the division superintendent on or before the date fixed for the annual meeting of the county school board.

106. Enforcement of laws and regulations.—It is the duty of all school officials to acquaint themselves with the school laws and regulations, and to see that they are carried into execution; and they are urged to tolerate nothing that might tend to impair the public school system or in any way interfere with the efficiency of the schools.

## School-houses

107. Plans for school-houses.—District school trustees should exercise the greatest care in the selection of plans and sites for school-houses, and shall see to it that these buildings are properly constructed and furnished with the necessary conveniences and appliances in accordance with the provisions of section sixty-one of the school laws. No school-house shall be contracted for or erected until the plans and specifications for the same, as well as the location, shall have been examined and approved in writing by the division superintendent of schools, who likewise shall be governed by the provisions of said section sixty-one.

108. Care of school-houses, and so forth.—It is the duty of the district trustees to visit the schools in their respective districts while they are in operation and to see that they are in proper condition; to aid the teachers in maintaining discipline and in all movements intended to improve the schools and promote education; and in vacation to see that the houses are securely locked and the school property carefully preserved.

109. Consolidation of schools.—The statute law requires the State Board of Education to guard by regulation against such a multiplicity of schools as will cause a low grade of instruction in them, or otherwise impair their efficiency. District school boards are therefore urged, and it is their duty, to co-operate with division superintendents in preventing the establishment and maintenance of small ungraded rural schools, especially where such schools are not absolutely necessary. Wherever it can be done, several small schools should be combined into one good graded school, with two or more teachers and a longer term.

## Common Schools—High Schools

110. Classification of schools.—The public free school system of Virginia under the control of the State Board of Education shall consist of common schools and high schools.

111. Common school branches; graded course of study.—In all the common schools, including primary and grammar grades, the following subjects shall be taught: orthography, reading, writing, arithmetic, grammar, geography, history of the United States, history of Virginia, physiology and hygiene, drawing, civil government, and morals and manners; instruction relating to the prevention of accidents shall also be given; and local school boards may provide for the introduction of music, nature study, manual training, and elementary agriculture into the schools. In each school division a graded course of study, as uniform as practicable, and embracing all the required common school branches, should be adopted for all the schools in that division.

112. *High schools and higher branches.*—In the high schools such studies shall be taught as are prescribed in the high school course of study.

113. *High schools receiving State aid.*—The districts in which high schools receiving State aid are located shall offer upon fair and equitable terms the privileges of the high schools to all districts of their respective counties which shall share jointly in the support of the respective high schools, subject, however, to the general supervision and confirmation of the State Board of Education.

114. Standard of requirements for high schools; foreword.— Three distinct courses are prescribed for the three classes of high schools: the third grade school with a two-year course; the second grade school with a three-year course, and the first grade school with a four-year course.

The requirements outlined for the primary and grammar schools must be fully completed before any student is admitted to the high school.

The amount of work to be accomplished by each grade of school is expressed in units, and the value of each subject is likewise indicated in units. A unit means a recitation period of forty minutes, five times a week, for thirty-six weeks, devoted to the completion of an assigned amount of subject matter.

The third grade high school shall offer at least eight units as specified in the requirements given below for "a third grade high school," and the second grade high school shall offer at least twelve units, as specified in the requirements given below for "a second grade high school."

While the thirty-six weeks' term is urged for both the second and third grade high school, nevertheless, where the conditions seem to demand it, the term may, with the consent of the Department of Public Instruction, be reduced to thirty-two weeks. In such case, however, *eight* grades should be provided below the high school.

In case of reduction either of the weeks in the term or of the minutes in the recitation, the value of the work as expressed in units shall be reduced *pro rata*.

The first grade high school shall offer and require not *less* than sixteen nor more than eighteen units for graduation, with a term of thirty-six weeks, and with recitation periods forty minutes in length. No reduction in the length of the term or of the recitation period may be made in the high school department of a first grade high school, but, where conditions seem to demand it, the elementary grades of the high school may be reduced to thirty-two weeks, provided *eight* grades instead of seven shall be provided in the elementary department of the high school.

115. Requirements for a third grade (two year) high school.-

1. The full time of at least one teacher must be given to the teaching of high school subjects.

2. At least two teachers must give their entire time to instruction in the elementary grades.

3. A minimum of one period (forty minutes) three times a week must be given by the principal to observation and supervision.

4. A standard system of records shall be kept, in permanent form, of the work of each pupil in the school.

5. When the texts selected for use in Science are those indicated in the list of High School text-books as requiring laboratory, ample laboratory equipment and laboratory instruction shall be provided.

6. All teachers in the high school department must hold certificates authorizing them to teach the high school subjects, or grades which are assigned to them.

7. An enrollment of not less than fifteen pupils must be maintained in the high school department.

8. Not less than eight nor more than ten units shall be required for the completion of the course offered. These units shall be distributed as follows: English, 2; Mathematics, 2; History, 1; Science, 1; Electives, 2; total, 8.

116. Requirements for a second grade (three-year) high school.—

1. In addition to the principal, the full time of at least one teacher must be given to the teaching of high school subjects.

2. At least two teachers must give their entire time to instruction in the elementary grades, and where the number of pupils enrolled in the elementary grades exceeds seventy, one additional teacher must be provided for each thirty-five additional pupils.

3. A minimum of one period (forty minutes) a day must be given by the principal to observation and supervision.

4. A standard system of records shall be kept, in permanent form, of the work of each pupil in the school.

5. When the texts selected for use in Science are those indicated in the list of High School text-books as requiring laboratory, ample laboratory equipment and laboratory instruction must be provided. 6. All teachers in the high school department must hold certificates authorizing them to teach the high school subjects, or grades which are assigned to them.

7. Teachers holding second and third grade certificates, and High School Certificates, without experience, shall not be allowed to teach in the elementary departments of the high school.

8. An enrollment of not less than twenty-five pupils must be maintained in the high school department.

9. Not less than twelve nor more than fourteen units shall be required for the completion of the course offered. The units shall be distributed as follows: English, 3; Mathematics, 2; History, 2; Science, 2; Electives, 3; total, 12.

117. Requirements for a first grade (four-year) high school.-

1. In addition to the principal, the full time of at least two teachers must be given to the teaching of high school subjects.

2. At least three teachers must give their entire time to instruction in the elementary grades, and where the number enrolled in the elementary grades exceeds one hundred, one additional teacher must be provided for each thirty-five additional pupils.

3. A minimum of two periods (80 minutes) each day must be given by the principal to observation and supervision.

4. A standard system of records shall be kept, in permanent form, of the work of each pupil in the school.

5. When the texts selected for use in Science are those indicated in the list of High School text-books as requiring laboratory, ample laboratory equipment and laboratory instruction must be provided.

6. All teachers in the high school department must hold certificates authorizing them to teach the subjects, or grades which are assigned to them.

7. Teachers holding Second and Third Grade Certificates, and teachers holding High School Certificates, without experience, shall not be allowed to teach in the elementary department of the high school.

8. An enrollment of not less than 35 pupils must be maintained in the high school department.

9. Not less than sixteen nor more than eighteen units shall be required for graduation. The units shall be distributed as follows: English, 4; Mathematics, 3; History, 2; Science, 2; Electives, 5. Minimum total, 16; maximum total, 18.

Note.--No exception to or modification of these requirements

will be allowed, except in those schools where financial and educational conditions are so unusual as in the opinion of the Department of Public Instruction to warrant the making of special provisions for them. In each case, however, any and all exceptions to the requirements must be approved in advance by the Department of Public Instruction.

118. Minimum requirements for a first grade normal training high school.—English, 4 units; Mathematics, 3 units; History, 2 units; Science, 2 units; Normal Training Work, 3 units; electives, 3 units; total, 17 units.

1. A class of eight pupils.

2. Three teachers, including the normal training teacher, giving their entire time to high school work.

3. A reference library approved by the Department of Public Instruction to cost not less than \$50.

4. An equipment of maps, globes and apparatus approved by the Department of Public Instruction.

5. A special normal training teacher whose training and salary shall be approved by the Department of Public Instruction.

6. A four-year high school course.

7. The pupils in the third and fourth year high school classes shall be admitted to the normal training classes according to the prescribed course of study.

#### Text-Books-Pupils, etc.

119. Text-books, etc.—The text-books and all maps, charts, and other appliances used in the schools embraced in regulation one hundred and ten, shall be selected from the list prescribed by the State Board of Education, in accordance with the regulations devised by said board.

120. Pupils to be supplied with proper books.—School officers and teachers shall require all children who apply for admission into the public free schools to be provided with such books as have been prescribed and duly selected under the regulations of the State Board of Education, and no child shall be allowed to remain in school unless he is provided with such books.

121. Text-book list.—There shall be kept in every school-room a copy of the list of text-books prescribed for use in that division, with a copy of the regulations of the State Board of Education concerning the same, that the pupils may be informed of the prices of such books fixed by the said board. Division superintendents shall see that a list of said books is furnished to each teacher before the schools are opened.

122. School month.—The school month shall consist of four weeks of five school days each, and, in the discretion of the local school board, deduction may be made from the pay of teachers for every day they lose except such days as shall have been declared holidays by district school boards.

123. Legal average attendance.—An enrollment of at least twenty pupils, with reasonable assurance of an average daily attendance of that number, is required to constitute a public free school, and no public school shall be established or continued until this condition is complied with; but boards of trustees, when satisfied that there is not a sufficient number of children in any school neighborhood to entitle them to a school under this regulation, and that the geography of the district is such that no judicious rearrangement of the several schools can be so made as to furnish the minorities proper school facilities, may certify a statement of the case, with a diagram of the section to be accommodated, to the division superintendent, who shall forthwith visit the section in question, and if he finds that the statements made are correct, and that the neighboring schools are judiciously located and cannot be so arranged as to furnish the minorities fair school facilities, he may authorize the board of trustees to reduce the average attendance of such school to fifteen. In cases where the average attendance is reduced by reason of a factious spirit on the part of one or a few people, or in consequence of the proper or necessary exercise of discipline, prevalence of contagious diseases, or lack of proper supply of text-books, the district board may continue such schools, if they deem it advisable to do so: provided, that all such cases shall be reported to the division superintendent and be approved in writing by him.

But in special cases the Superintendent of Public Instruction, in his discretion, may, on the recommendation of the division superintendent, order such a school opened where an average of ten can be maintained.

124. Admission of pupils from other districts into high or graded schools.—Pupils may in all cases be admitted into the high schools or graded schools of more than one teacher by the authorities thereof without reference to the dividing lines of districts or counties, unless forbidden by act of Assembly. In this and in all other cases where pupils attend schools outside of their own districts in accordance with these regulations, the rate of tuition to be charged by the district receiving the pupil against the district to which the pupil belongs, shall be a matter of previous agreement between the school boards of the two districts concerned.

125. Attendance of children of adjoining district of another county.—Whenever a school is so situated in one district that it may be advantageous for children of an adjoining district of another county to attend it, with the approval of the superintendent of the division in which the school is located, the board of the district from which such children attend shall, in the absence of agreement or when no agreement can be reached, pay to the district in which the school is located, for each of such children attending said school, the cost of education per pupil enrolled as determined by said division superintendent; provided that any person interested, or either of the district boards concerned, may appeal to the Superintendent of Public Instruction, either as to the attendance of such pupils or the cost of education as aforesaid.

126. Admission of other persons; night or evening schools or classes.—In order to extend educational privileges to persons (including those between the ages of 20 and 25 years) unable to avail themselves of the full benefits of the public schools—

(a) Any district board may, in its discretion, and upon such terms and conditions as the division superintendent may approve, admit such persons into any of the schools of the district, provided their admission will not, in the opinion of the board and the superintendent, impair the usefulness and efficiency of the schools. No such person shall be retained in any school to the detriment of the school or any of its pupils, or to the exclusion from the school of any child between the ages of seven and twenty years.

(b) Any district board may establish and conduct night or evening schools or classes as provided by section 102 of school law, upon such terms and conditions as the division superintendent may approve.

127. Submission to regulations.—Every person received into the public schools in accordance with the provisions of regulation one hundred and twenty-six shall submit to the regulations of the school and to the authority of the teacher in like manner as other pupils.

#### Teachers

128. Who may not teach.—No division superintendent of schools, district school trustee, county treasurer or deputy treasurer

shall teach a public school; nor shall any brother, sister, wife, son, or daughter of a district school trustee teach a public school in the district in which said trustee resides.

129. Notice of charges.—Due notice, and an opportunity to be heard, shall be given by district boards to any teacher or principal against whom charges involving character are made.

130. *Teacher's register.*—No teacher shall receive a warrant for his last month's pay until the register shall have been returned to the district clerk with all the required entries properly made therein.

131. Enforcement of discipline.—Teachers shall require of pupils cleanliness of person, punctuality, diligence, and good behavior during their attendance at school and on their way thither and back to their homes. In the enforcement of discipline teachers have authority, subject to such regulations as the district boards may prescribe, to inflict reasonable penalties, and for a sufficient cause they may suspend pupils from school until the case is decided by the district school trustees, which shall be with as little delay as possible: provided, that in all such cases of suspension the teacher shall promptly report the facts in writing to the district school board and to the parent or guardian of the pupil suspended.

132. Sundry duties of teachers.—It is the duty of teachers to improve themselves in the art of teaching by studying approved books on the subjects they are to teach, by attending summer normal schools, teachers' meetings and reading circles, and by making themselves thoroughly acquainted with some of the best books on pedagogy, school management, and the history of education, and also by reading educational, periodicals and pursuing such a course of general reading as will best tend to increase their knowledge and usefulness as teachers.

They should see that the school-houses are kept clean and made comfortable and attractive, and should encourage the pupils to aid in this work. In case the school-house is in unsuitable condition or necessary supplies are needed, the teacher should report the facts at once to the clerk of the district school board or to the nearest trustee.

They should visit and establish cordial relations with the patrons of the schools and enlist their co-operation in every effort to improve school conditions.

They should exert themselves to establish school libraries and to form local education associations and school improvement leagues.

## Regulations of the State Board of Education

They should, in conjunction with the division superintendent and the district trustees, make arrangements for holding suitable public exercises on one day in every school year, to which all the patrons and friends of the school shall be invited, the necessary expenses for such exercises, unless otherwise provided, to be defrayed out of the district school fund by order of the district school board.

Teachers must make monthly and term reports to the division superintendent and such special reports as he may from time to time require of them.

They must not, without the consent of the district school board, engage substitutes; nor shall they, without such consent, close their schools on regular school days during the term for which they have contracted to teach unless they are compelled to do so by unavoidable circumstances.

#### **Miscellaneous Provisions**

133. Medical inspectors of schools.—The school boards of the cities and counties may, in their discretion, select and appoint medical inspectors of school children, whose duties and compensation shall be prescribed by the respective boards, and who shall report to and be under the control of said boards.

134. Elections for public free school purposes.-First. All elections held in any county or magisterial district or school district of this State for public free school purposes shall be superintended, conducted, and held under the law governing special elections generally as set forth in section 146 of the Code of Virginia-that is to say, they shall "be superintended and held, notice thereof given, returns made and certified, votes canvassed, results ascertained and made known," "certificates of election given by the same officers, under the same penalties, and subject to the same regulations as prescribed for general elections, except so far as may be otherwise provided"-----in all particulars in conformity with the requirements and provisions of section 146 of said Code in regard to all special elections: provided, however, that the writ of election or order and notice of any election ordered by the board of supervisors of any county to be held for any public free school purpose in any county or district shall be posted by the sheriff of the county at each voting place in the county or district in which such election is to be held, at least ten days before such election, in accordance with the provisions of sections 101 and 115 of said Code, which are hereby declared to be applicable to all such elections so far as practicable.

Second. The sense of the voters in any county or district on all matters which may be properly referred to said voters under the provisions of the school law, shall be taken and ascertained in the manner prescribed in the preceding regulation whenever any election shall be ordered for any school purpose in any county or district by the board of supervisors of the county or other authority empowered by law to order any such election.

135. Collection of fines for benefit of literary fund.-The Superintendent of Public Instruction, by and with the advice of the Attorney-General, is authorized to take such steps and employ such attorneys and agents for the collection of fines due the Commonwealth for the benefit of the literary fund as may be deemed necessary, the said attorneys and agents to be paid for their services out of actual collections made in each individual case such compensation as may be agreed on in writing: provided, that no such attorney or agent shall be employed to enforce the collection of any fine which has been imposed during the term of office of any attorney for the Commonwealth now in office in the State. When such collections are made, the net amounts thereof shall be turned into the treasury of the State to the credit of the literary fund as provided by law, and the Superintendent of Public Instruction, by and with the advice and co-operation of the Attorney-General, is authorized to make such compromise, settlement and adjustment of said fines as may be deemed right and proper and for the best interests of the school funds of the State.

## APPENDIX

## Instructions to Division Superintendents as to Examinations of Teachers.

1. Dualistic or Two-fold Examination.—The Department of Public Instruction utilizes the services of the division superintendents in providing for a dualistic or two-fold examination of the papers. They will be valued first by the division superintendent in whose county or city they are prepared, and afterwards by a State Examiner.

2. How to Value Papers.—The papers handed in by those taking the uniform examinations will be assorted as prescribed in Form E No. 18 and will be valued question by question by the division superintendent before they are forwarded to the Department of Public Instruction. The superintendent will place his valuation of the answer or answers to each question or block of questions on the left-hand margin of the paper and surround the numbers giving his grading with a circle. It is suggested that a blue pencil be used for this purpose. He will also enter the grades on Form E No. 4, in ink, and the totals in the proper column. The name-slips (Form E No. 3) will be sealed in an envelope and sent in with the papers.

It is suggested that the superintendent value questions 1 or block 1 on all the papers of each subject and then pass to question 2 or block 2, and so on. This will save much time over the method of reading each paper through before the next is considered. This plan makes the grading more uniform also, and easier.

The foregoing, however, does not apply to the papers on High School subjects and on the Teachers' Reading Course. Division Superintendents need not examine or grade these. Put the papers on High School subjects and Reading Course subjects in a separate package, mark it "special" and send it to the Department of Public Instruction, where such papers will receive due attention.

Teachers who take the Reading Course Examination should fill out Form E No. 2-R and should attach to this Form the certificate to be extended. This is highly important.

Those who take the examination on High School subjects should fill out Form E No. 2—S. H. S.

To promote uniformity, answers are furnished the division superintendents on all subjects, except those pertaining to the Reading Course and High School examinations.

3. One Person to Examine all Papers on a Given Subject.—If the superintendent is aided in the examination of papers, he should divide the work by subjects and not by names. If two persons examine the papers on

one subject it is to the State Examiner just the same as if the papers came from two counties. The person who examines the papers should write his name on each.

4. How Papers Are Arranged and Shipped.—Do not fold papers; fasten the papers on one subject together in numerical order and be very careful to keep all the papers on each subject in one envelope (Form E No. 6) if possible, the papers of white and colored applicants being bound in separate bundles as heretofore. Form E No. 10 must be fastened to the examination papers on that subject.

5. When Certain Forms Are Sent.—Send Form E No. 11 at close of examination.

Send Forms E Nos. 2, 3, 4, 6 and 10 with shipment of papers not later than ten days after the examination closes.

Fill out Form E No. 4, Form E No. 6 and Form E No. 10 on all of the subjects valued by the division superintendent and be sure to mark with an X *every subject not taken* by an applicant. This is important as it will prevent the possibility of any errors.

Note.—These X marks should be inserted at the close of each examination.

Do not send papers to the Department by parcels post.

Destroy all old copies of Form E No. 2 and use only those copies that are sent you.

6. Numbering Applicants.—The numbers of applicants should correspond as nearly as may be with the alphabetical sequence of their names. Every element of regularity of this nature aids very materially in a large undertaking of this kind.

If the papers of colored applicants on any subject are placed in the same envelope (Form E No. 6) with those of white applicants and their numbering begins with 1, the superintendent may change the lower numbers on Form E Nos. 6 and 10.

7. The Finishing Touches.—One person in the Department will be charged with the duty of distributing the papers to the examiners immediately after they reach the Department. The examiners will act promptly and return the papers almost daily to the Department, where a number of persons will be employed in tabulating results, issuing certificates, etc., in a regular and expeditious manner.

The reports will be sent to applicants. Certificates and copies of the reports will be sent to division superintendents. After making a record of a certificate and endorsing the same, the division superintendent will forward the certificate to its owner.

8. In all cases in which combinations are desired, as provided in Section 42 of Form E No. 19, the certificate-report to be combined must be attached to Form E No. 2. The importance of this regulation should be called to the attention of all teachers who desire a combination. The Department cannot take up valuable time in changing examination reports, returned after the work has been completed, and a report of same has been mailed to both superintendent and applicant. Hereafter the applicant's name will appear on Form E No. 2.
